Tailored Bathrooms

EDITION 10

TailoredBathrooms

the finest fittings for exceptional bathrooms

GUARANTEES

Many of our products are covered by 1, 2, 3, 5 or 15 year guarantee, if not stated, all others are covered by 12 month replacement guarantee. All claims will require proof of purchase and evidence of issue.

This does not cover accidental damage, improper use or negligence and must be installed by a qualified plumber in domestic setting only.

These guarantees do not cover general wear and tear or poor installations and consequential losses will never be covered.

For full guarantee information please visit our website.

None of the above affects your statutory rights.

At Tailored Bathrooms, we source products from all over the globe, ensuring that we are bringing our customers the best product with affordability, design and quality at forefront of our vision.

We work tirelessly with our partners bringing new and improved products to our range at every opportunity.

Our customers can rest assured that any product entering our range has undergone rigorous life cycle testing and due diligence before being brought to market.

Where applicable our products conform to the relevant UK & European Certification & Standards.

Eco and Cost Saving Technology for your Bathroom

Our range of taps offer combined cold start and eco flow technology reducing energy and water usage, making these taps extremely efficient and cost reducing. With the fitter in mind these also have our easy fix install nut and are finished in high quality electro plating or PVD coating. TB Plus taps tick all the boxes with stylish ease.

TB+ Redondo Round Tall ECO Control/Cold Water Start Basin Mixer

Code 5702 Chrome

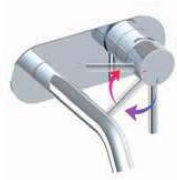

page 114

TB+ Quadrado Square ECO Control/Cold Water Start Basin Mixer

Code 5706 Chrome

page 110

Cold start technology promotes the primary use of cold water for daily tasks which do not require hot water. The tap lever starts in the position to only deliver cold water reducing the carbon emissions and costs associated with heating the water. Unlike our standard mixers where the central start position would have your boiler firing up each time! Of course, if you still want hot water just turn the tap as you normally would to the left.

To complement our Cold Start function our uniquely developed two step cartridge also offers Eco Flow. When you first lift the handle, it will allow 30% of your achievable water flow meaning that you are not using excess water, further lowering your bills and reducing water wastage! If you do require a little more water lifting the handle into step two to offer you full flow.

Where you see this logo our taps have an easy install nut to allow quick installation with no tools required making it ideal for those tight spaces or jobs tight on time!

TBPLUS
Our range of taps offer combined cold start and eco flow technology reducing energy and water usage, making them extremely efficient and cost reducing. With the fitter in mind these also have our easy fix install nut and are finished in high quality electro plating or PVD coating. TB Plus taps tick all the boxes with stylish ease.
COLD START
Cold Start technology preventing unnecessary water heating.
ECO 30% FLOW
Eco Flow with 30% flow from start to reduce water usage & override to full flow when you need it.
EASY FIX INSTALL
Easy Fix Install taking the hassle out of swapping to TB+

New

New to our Furniture Range

Monza Plus

New colours launching in the Monza Plus range with Warm Oatmeal & Matte Black units, and Cali Walnut & Grey Marble countertops. Tailor to your taste with options on rich, warm neutrals and understated luxury.
Customise to your home with a choice of 600mm, 900mm & 1200mm widths, on trend fluted fronts & sleek inset handles.

page 14

page 16

page 17

All our furniture units come without handles - make sure you add yours from p52

page 44

Sora

New range Sora offers clean, contemporary design with your colour option on sophisticated handle finshes. Providing ample storage in stylish and functional centerpieces for any modern bathroom.

page 44

Flauto Mini

page 22

Adding a new space-saving wall hung design to the Flauto Mini range, freeing up floor space to make even compact bathrooms feel larger and easier to clean. The perfect solution for those seeking to blend sophisticated style with everyday practicality.

Acerra

page 46

A perfect blend of style and functionality for your compact bathroom or cloakroom, Acerra features sleek, handleless design and soft, rounded edges, adding a touch of modern minimalism to any decor.

Flauto Curve

page 27

Expanding the Flauto range to add in sunken basins & clean counter tops to the clever, stylish storage solutions. Now available in 600mm, 800mm, 870mm, 1000mm, 1070mm, 1200mm & 1400mm options.
Whether side box storage for your vanity unit or double basins, Flauto has your storage solved without compromising on style.

page 43

Bakewell

Bakewell continues to lean in to traditional aesthetics with clean panelled drawers. Available in 3 colours, now with sophisticated double basin design options.

SHOWERS and Accessories

All of our Brushed Brass, Brushed Bronze & Gunmetal taps & showers are finished with a Physical Vapor Deposition (PVD) coating. This is a high-tech vacuum process provide a thin film to the surface of our products which creates a high performance durable protective barrier against wear & tear as well as giving an enhanced decorative appearance.

Eco and Cost Saving Technology for your Bathroom

TBPLUS

With cold start technology to prevent unnecessary heating, & our Eco Flow to reduce water usage, TB+ ticks the boxes with stylish ease.

COLD START

Cold Start technology preventing unnecessary water heating.

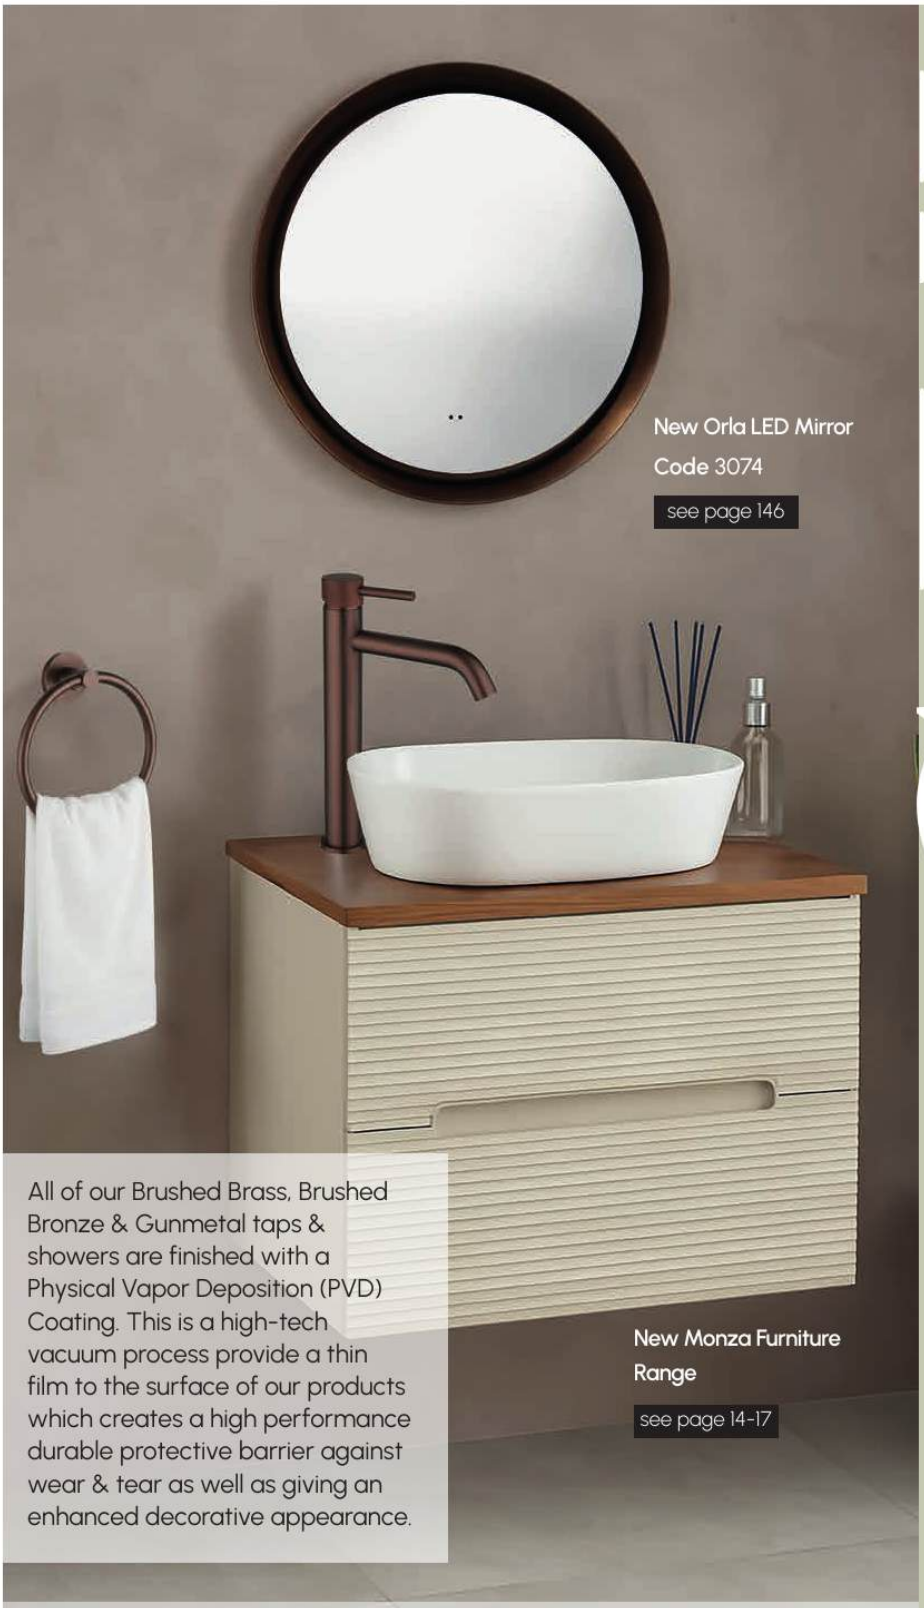

ECO 30% FLOW

Eco Flow with 30% flow from start to reduce water usage & override to full flow when you need it.

EASY FIX INSTALL

Easy Fix Install taking the hastle out of swapping to TB+

For more information and to see the full range head to pages 112 - 119

All of our Brushed Brass, Brushed Bronze & Gunmetal taps & showers are finished with a Physical Vapor Deposition (PVD) Coating. This is a high-tech vacuum process provide a thin film to the surface of our products which creates a high performance durable protective barrier against wear & tear as well as giving an enhanced decorative appearance.

TB+ Bathroom Taps	112	Tap Accessories & Wastes	138
Bathroom Taps	120	Kitchen Taps	140

Cold start technology promotes the primary use of cold water for daily tasks which do not require hot water. The tap lever starts in the position to only deliver cold water reducing the carbon emissions and costs associated with heating the water. Unlike our standard mixers where the central start position would have your boiler firing up each time! Of course, if you still want hot water just turn the tap as you normally would to the left.

To complement our Cold Start function our uniquely developed two step cartridge also offers Eco Flow. When you first lift the handle, it will allow 30% of your achievable water flow meaning that you are not using excess water, further lowering your bills and reducing water wastage! If you do require a little more water lifting the handle into step two to offer you full flow.

Where you see this logo our taps have an easy install nut to allow quick installation with no tools required making it ideal for those tight spaces or jobs tight on time!

Eco and Cost Saving Technology for your Bathroom

TBPLUS

Our brand new range of taps offer combined cold start and eco flow technology reducing energy and water usage, making them extremely efficient and cost reducing. With the fitter in mind these also have our easy fix install nut and are finished in high quality electro plating or PVD coating. TB Plus taps tick all the boxes with stylish ease.

COLD START

Cold Start technology preventing unnecessary water heating.

ECO 30% FLOW

Eco Flow with 30% flow from start to reduce water usage & override to full flow when you need it.

SUPER BTU

Why Aluminium?

Very Energy Efficient
Not only will less gas be used in the process of heating your radiators, our aluminium radiators also use a particularly low amount of water inside them. Less gas, less water and cheaper energy bills as a result. A fantastic reason for switching over to aluminium radiators!

Highly Conductible
Aluminium is great for heating up quickly, a lot faster than the cast iron or steel alternatives.

Eco Friendly
Can be made from recycled materials & then re-recycled again once it's time to replace. A great eco-friendly option.

Flexible & Durable
With industrial grade properties, they will last longer than alternative materials without degrading & the added flexibilities allow for great designs during manufacturing.

GUARANTEE INFORMATION

Many of our products are covered by 1, 2, 3, 5 or 15 year guarantee, if not stated, all others are covered by 12 month replacement guarantee. This does not cover accidental damage, improper use or negligence and must be installed by a qualified plumber in domestic setting only. These guarantees do not cover general wear and tear or poor installations and consequential losses will never be covered.

For full guarantee information please visit our website.
None of the above effect your statutory rights.
We have a vision to combine high quality, luxury design and affordability. With experience in bathrooms, importing and quality assurance you can be assured that our product quality and service is outstanding.

Our products are developed and manufactured to strict quality standards and where applicable has relevant UK/EU Certification obtained. We aim to offer our customers outstanding value and quality to match!

ERRORS & OMISSIONS

Prices may be subject to manufacturers price increases, prices were correct at the time of print October 2025 but can be amended without prior notice.

Due to Tailored Bathrooms constant R & D improvements we reserve the rights to amend product design and withdraw at any time. All Colours in this brochure are as accurate as possible where printing process allows.

PRICES

The prices within this brochure are correct at the time of printing and supersede all previous pricing.

Goods are invoiced at price on date of dispatch. Prices are inclusive of VAT and are subject to being amended without notice.

MEASUREMENTS

All dimensions given by drawing or text are for guidance only, these are nominal and supplied unless otherwise stated in millimetres.

CARE & CLEANING

For all our products it's as simple as warm soapy water and microfibre cloth!
Use of abrasive cleaning products will void your guarantee.
