Discover Your Bathrooms Potential

Welcome to the new edition of the Bathroom Collection. At the front of the catalogue you'll find a comprehensive overview of our range of over 6,000 products, to help you find what you're looking for.

We strive to produce a catalogue at least twice a year to ensure we have as much detailed information and newly added product ranges.

Our aim is to have visually appealing quality products for bathrooms, cloakrooms and en-suites of all shapes and sizes, and to suit all tastes and budgets.

We offer full technical backup for all customers, supported by large stocks and a dedicated single depot delivery service throughout the UK. This is to ensure all clients receive the best service from conception to completion and aftersales.

We have tried to ensure that all price and product information is correct at the time of going to print. However, the specifications contained in this catalogue are for information purposes only and are subject to change. Due to our ongoing policy of product development and improvement, all prices, specifications and features are subject to change without prior notice. We deliver all our goods on our own dedicated transport fleet to ensure a speedy and problem free service. However, in the unlikely event of a problem with any items, we would stongly recommend that customers order their goods with enough time to thoroughly check them and allow time for a replacement to be sent before installation commences. Errors and omissions excepted. As a company we encourage all of our customers to recycle all packaging from our products.

Matt White Baths

Eastbrooks new Matt White Baths, stand apart with their unique qualities and looks.

Crafted through casting, they boast a pure matt texture without any coatings or glaze. This pure white surface has a remarkable ability to absorb and gently scatter light, creating a soothing ambience.

This new Matt White option aslo offers a natural warmth that preserves the water's heat, inviting you to indulge in longer and enjoy those relaxing moments of tranquillity.

Electronic Eco Flush

Throughout this section you will find various cisterns which are able to accommodate the Jollytronic universal bottom entry cistern fitting 7.1002.

The hygienic, no touch flushing system with its motion-activated infrared mechanism allows for hygienic, contact-free operation, while offering water-saving options: a quick hand wave for half a flush and a 4-second hold for a full 6L flush.

BUILT IN SENSOR
This system flushes for as long as the sensor is covered which allows the user to flush the toilet for just the right length of time needed to clear.

Electrronic Eco Flush P260

Beaufort

OUR NEW IMPROVED **BATH COLLECTION**

Ultra-strong, superior quality, yet affordable.

After more than 3 years of research and development, with a major investment in the latest technology, equipment and production facilities, ***Eastbrook is proud to introduce Beaufort***, our improved collection of exceptional baths.

Named after the Beaufort wind force scale used by the Met Office for the shipping forecast, each new line is named after a sea region around the British Isles. Relating to the strong winds and fair weather conditions in these regions, the new Beaufort collection combines the lightness and warmth of acrylic with the strongest and best insulating materials available, to deliver the perfect bath.

With many of us spending more time at home than ever before, bathing and its restorative contribution to wellbeing and relaxation is ever more relevant. Now is the time to invest in a superior bathing experience with a new Ultra-Strong Beaufort bath. It will revitalise your bathroom space and provide the warmth and comfort you need for that long therapeutic soak.

Storm Proof. 5mm.

Beaufort

Ultra Strong. Ultra Warm.

Beauforté

Eastbrook has sold over a million baths. Through working closely with showrooms, plumbers, installers, and end-users, we have developed a thorough knowledge about what people want from their bath. The Beaufort range is the culmination of our technical and market experience combined with our practical knowledge and understanding of what a bath fitter requires.

Following a comprehensive research study, we established there was a market need for a quality acrylic bath range with Ultra-Strong attributes yet positioned at an affordable price point. This resulted in a major investment with leading UK bath manufacturer Hartford Holdings Group. Together we have developed a dedicated UK production facility for the manufacture of our affordable but luxurious 5mm and Ultra-Strong Beauforté bath collection. These are available in a wide choice of bath designs and size options to suit every bathroom space.

The Beaufort bath collection continues to build on Eastbrook's hard-won reputation for exceptional products, exceptional stock, and exceptional service.

A Wave Of British Quality That Lasts

MADE IN THE UK

BEST IN CLASS MANUFACTURING

Following the best British manufacturing standards and technical innovation, Beaufort baths are manufactured in the UK with skill and precision.

All Beaufort baths are manufactured from 5mm Asterite sanitaryware grade cell cast acrylic sheet. As a result of the acrylic being cast the colour is all the way through the material rather than a top surface layer. Each bath is vacuum formed on the very latest vertical vacuum forming machines that are capable of zone heating the acrylic prior to moulding to ensure not only an even form every time but an ability to control the material thickness as it is drawn into the tool.

Storm proof standards

Following the finest traditions of British craftsmanship and technical innovation, the Beaufort line is manufactured to extracting standards meeting EN198, CE EN14516:2015 CL1 PH standards. The production moulds have been created using one of the fastest and most accurate Computer Numerical Control (CNC) systems available to machine the best quality solid aluminium bath moulds that have been milled to tolerances of 10 micrometres. Regulated temperature controls and integrated vacuum chambers ensure that each bath formed is done so in regimented conditions to ensure the perfect result every time.

Precision moulding

Our precise mould calibration delivers an impossibly silky finish, arguably the best in the market.

The Difference Is Beaufort

GALE FORCE STRENGTH

The materials from which our Beauforté baths are constructed are incredibly strong and hard wearing. This market leading reinforcement process results in a product that is as strong as a steel bath and almost double the strength of a typical acrylic bath. This result gives us a more rigid bath with no movement or flexibility when you shower or bathe.

MAINTAINS WARMTH

The standard 5mm bath is made storm proof by our proprietary fibre and resin mix. The extra reinforcement in the Beauforté adds an additional layer of insulation to the underside of the bath. This means that the warm bath temperature is retained for much longer. A long relaxing soak can be enjoyed with no need to top up with hot water, less wasteful and good for the environment.

EXTRA SUPPORT

Every Beaufort bath comes with the highest specification support system available. This has been specifically designed to handle the extra weight of the Beauforté reinforced baths but is a standard feature across the whole Beaufort range. It has five adjustable legs for precision levelling and robust wall brackets to guarantee maximum rigidity. As a result, maximum rigidity is achieved with no movement from the bath and no problems with sealing.

THE CHOICE OF THE PROFESSIONAL

Eastbrook has been selling bathrooms for over 30 years. During this time, we have spoken to skilled installers every day and we understand that the professional bathroom fitter requires quality products that are easy and quick to install with no customer call backs. The Beauforté range is backed by a full 30-year guarantee against manufacturing faults. We are confident that you will find it's excellence and longevity unsurpassed in the market today.

MANUFACTURER'S WARRANTY

We've Sent Reinforcements

Beauforté

Our Ultra-Strong, Gale Force range.

This fantastic collection of superior quality baths includes the Ultra-Strong Gale Force range, which features the added strength and rigidity of Beauforté.

Whatever the size or shape of your bathroom space, there are a wide choice of bath designs to choose from – all of which offer exceptional value for money.

Our Strongest Bath Solution

Beauforté

HOW DOES BEAUFORTÉ WORK?

Beauforté is an intensive process that adds an Ultra-Strong layer of reinforcement to the underside of each bath. This not only greatly increases the strength of the bath but also increases its heat insulation properties. It results in a bath that is as strong as a steel bath and around **45% stronger than a typical acrylic bath**.

A Beaufort bath reinforced with Beauforté is arguably the strongest and most durable acrylic bath available on the market today. This innovative bath solution offers many other practical advantages – quality design, rigidity, longevity, all combined with an exceptionally silky, warm acrylic finish.

The special layered reinforcement process of Beauforté makes these baths suitable for areas of high-use such as hotels, guest-houses, and large family homes. When fitted with the high specification support system, maximum rigidity and a perfect fit is achieved.The standard 5mm Beaufort line is made 'storm-proof' by our proprietary fibre and resin mix. The Beauforté reinforcement on the Gale Force line adds an extra layer of insulation to the underside of the bath; this means the warm bath temperature is retained for much longer. A long, relaxing soak can be enjoyed with no need to top up with hot water, good for the environment and less wasteful.

Suitable for high use facilities

The special layered reinforcement process of Beauforté makes these baths suitable for areas of high-use such as **hotels**, **guest-houses**, and **large family homes**.

Portland SINGLE ENDED

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution, available in both single and double ended variants, with or without grips. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 26 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Sloping back rest for lumbar support

Portland DOUBLE ENDED

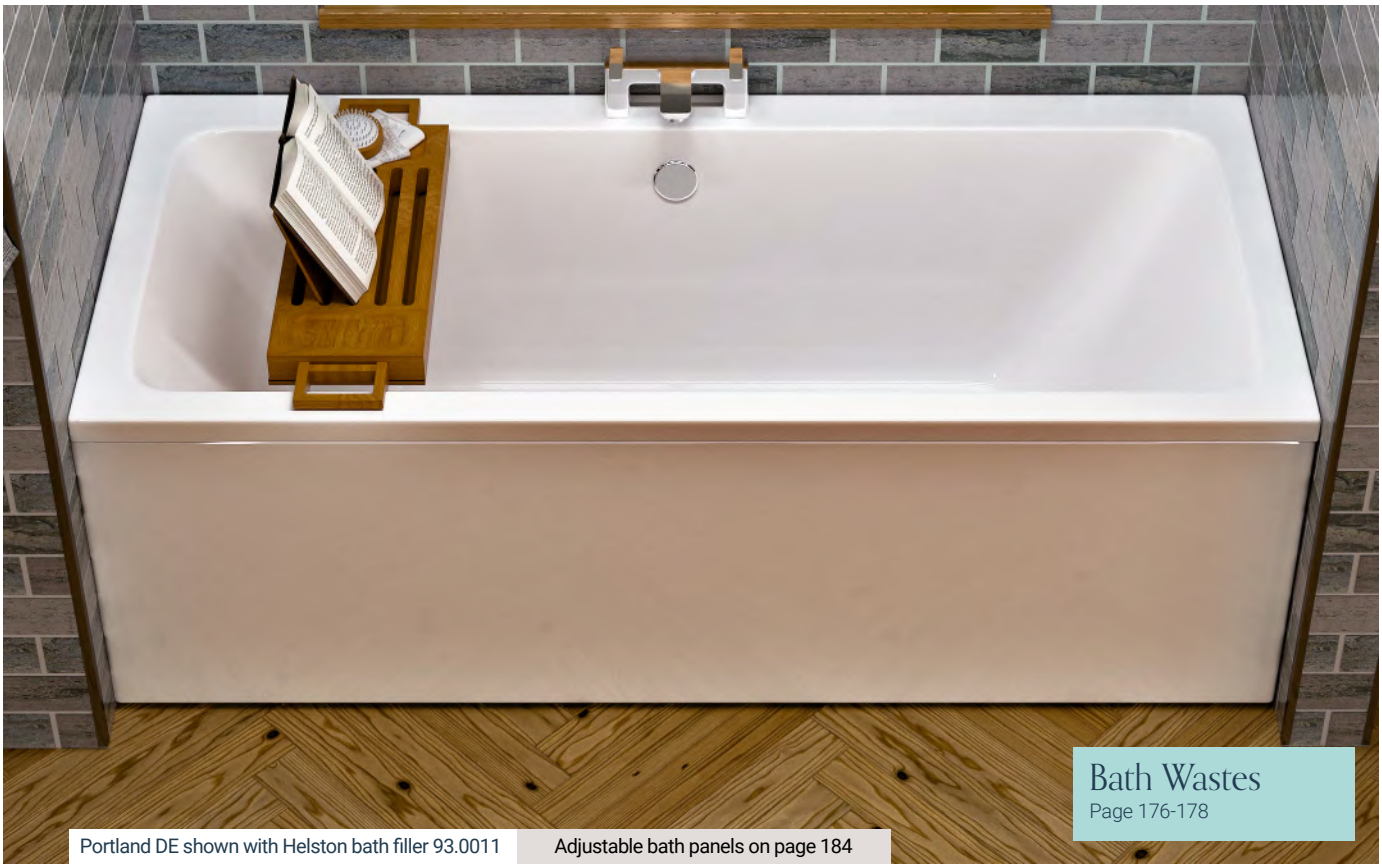

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution, available in both single and double ended variants, with or without grips. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

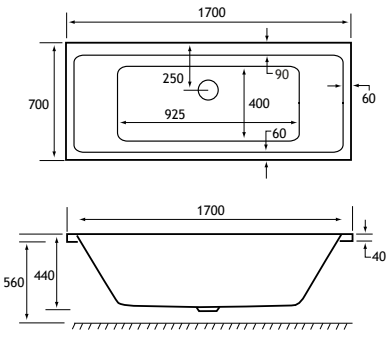

- 10 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland DE models
- Sloping back rest at both ends for lumbar support

Portland DOUBLE ENDED, SINGLE GRIP

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution, available in both single and double ended variants, with or without grips. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 6 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Single grips available in 6 colours (Sold separately)

Portland P-SHAPE

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland P-Shape is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 12 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Wider curved space at one end for showering

Fitzroy SINGLE ENDED

The sea region of Fitzroy lies off the northwestern coast of Spain, which boasts a picturesque landscape characterised by its jagged coastline, rugged cliffs and stunning beaches. If you're looking to add a unique touch to your bathroom, the Fiztroy bath range is just what you need. The design features a corner shelf for taps or bathroom accessories.

The Fitzroy has narrow, minimalist edges that blend seamlessly with the overall design of the bath, giving your bathroom a modern and stylish look.

This bath is offered in both left-hand and right-hand versions, making it perfect for any bathroom layout.

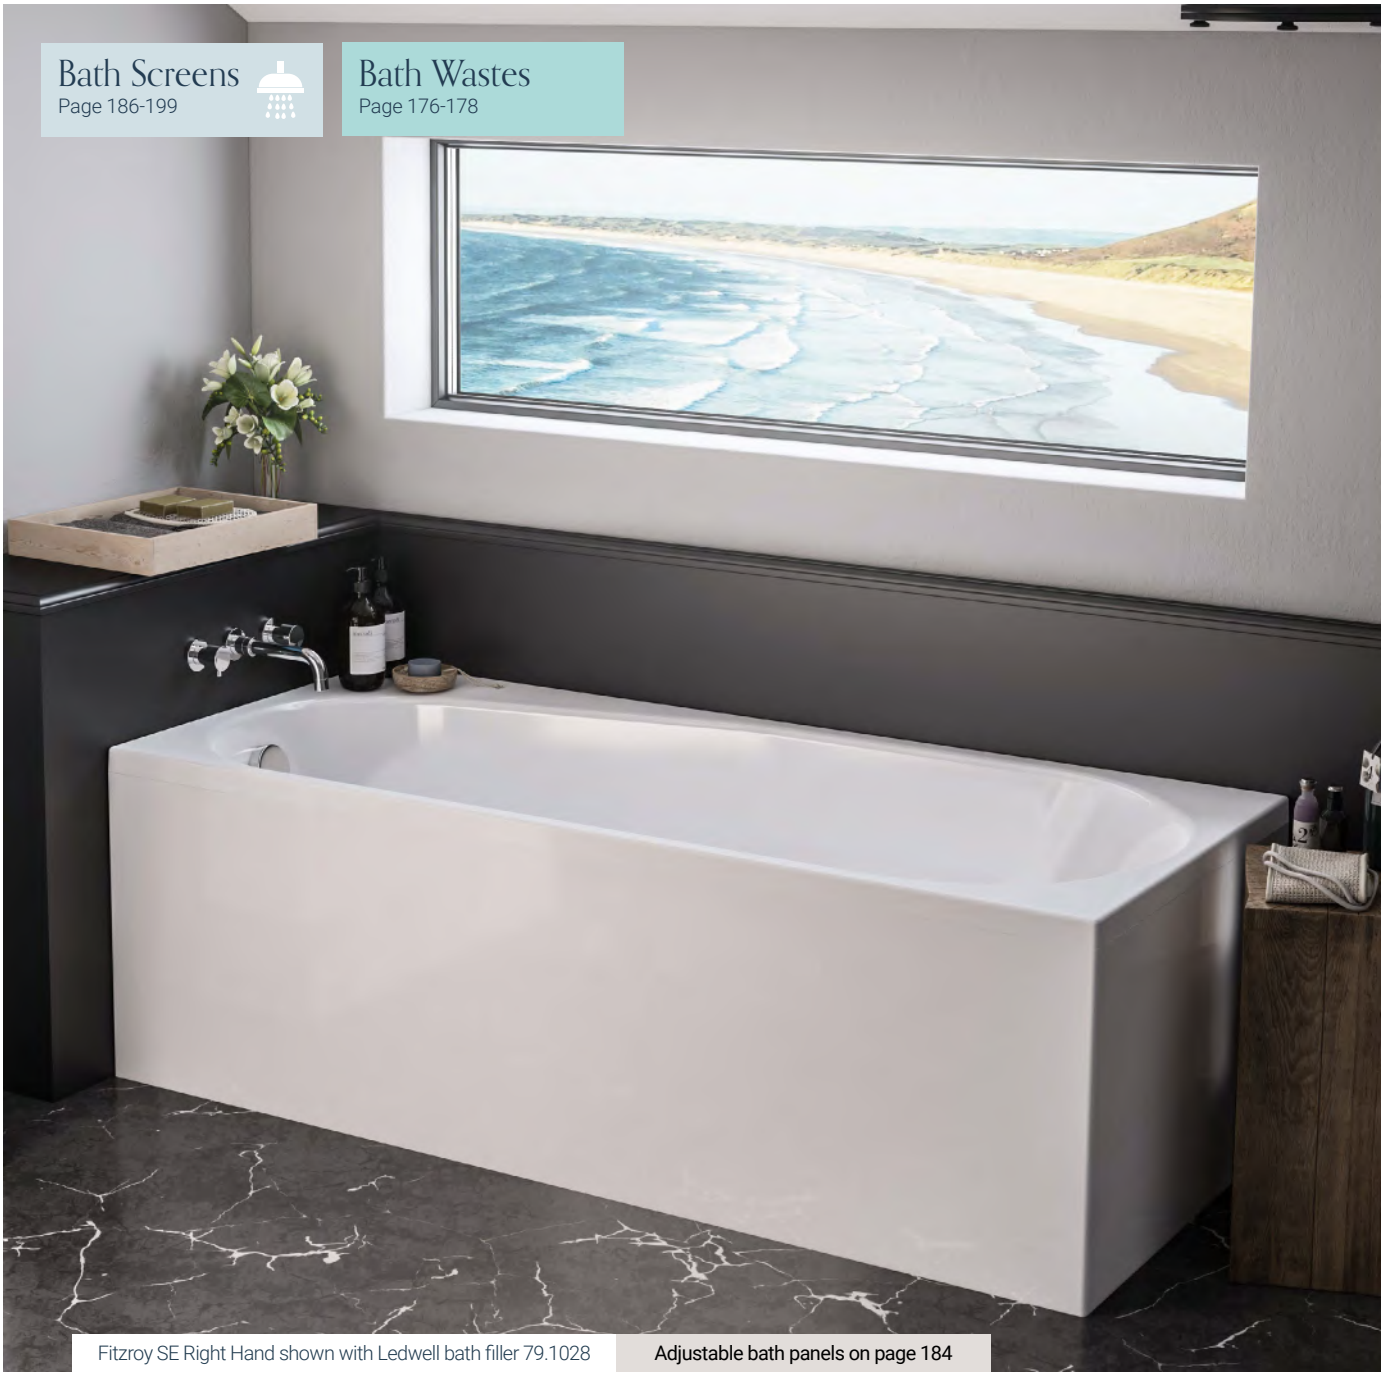

PRODUCT FEATURES

- 4 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Fitzoy models
- Wide corner shelf for taps or bathroom accessories

Biscay SINGLE ENDED

Located in the curved gulf where the west coast of France meets the north of Spain, the Biscay sea region is notorious for some of the fiercest weather conditions of the Atlantic Ocean. The robust single ended Biscay bath is reminiscent of this region, with a distinctive rounded end corner surrounded by a 40mm deep ledge. This space efficient bath provides a large bathing area and is 440mm at its deepest point, ensuring a luxurious, comfortable soak.

The Biscay is available in left or right-handed bath variants, and in a choice of 1600x725mm, 1650x700mm, 1700x700mm, 1700x750mm & 1800x750mm. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 20 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Biscay SE models
- Curved space saving style with one piece panel

Biscay DE Left Hand shown

Biscay REEF DOUBLE ENDED

Located in the curved gulf where the west coast of France meets the north of Spain, the Biscay sea region is notorious for some of the fiercest weather conditions of the Atlantic Ocean. The robust double ended Biscay bath is reminiscent of this region, with a distinctive rounded end corner surrounded by a 65mm deep ledge. This space efficient bath provides a large bathing area and is 440mm at its deepest point, ensuring a luxurious, comfortable soak.

The Biscay Reef is a Luxury bath which can be matched with square or rounded taps, avaliable in sizes of 1600x800mm, 1700x800mm, and 1800x800mm. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 6 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Biscay DE models
- Inner shelf for taps and accessories

Rockall SINGLE ENDED

The Rockall sea region is located off the west coast of Ireland and is where the largest wave ever recorded by a shipping vessel was encountered. The Rockall bath is evocative of this region, in a functional, sturdy, yet stylish design. Comfortably proportioned, this single-ended bath features a modern, angular look and perfectly complements the latest square profile sanitaryware and taps. The back end of the bath is curved for comfort and the silky finish gives it a luxurious appeal.

The Rockall is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 22 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Rockall SE models
- Sloping back rest at one end for lumbar support

Rockall SINGLE ENDED, TWIN GRIP

The Rockall sea region is located off the west coast of Ireland and is where the largest wave ever recorded by a shipping vessel was encountered. The Rockall bath is evocative of this region, in a functional, sturdy, yet stylish design. Comfortably proportioned, this single-ended bath features a modern, angular look and perfectly complements the latest square profile sanitaryware and taps. The back end of the bath is curved for comfort and the silky finish gives it a luxurious appeal.

The Rockall is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 22 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Rockall SE models
- Twin grips available in 6 colours (Sold separately)

Malin SINGLE ENDED

Malin is the sea region off the rugged Irish north coast, renowned for its strong sea winds, majestic landscapes, and high tides. The strength and clarity of the Malin bath is suggestive of this region, with its minimalist, clean lines, and gently curved back rest support. Featuring narrow ledges on 3 sides, the ultra-modern design of the Malin offers a larger internal bathing space than a deeper-sided bath of the same dimensions.

The Malin is available in both single-ended and double-ended bath variants and in a wide choice of sizes. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 20 SE models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Malin SE models
- Modern thin rim for maximised bathing space

Malin DOUBLE ENDED

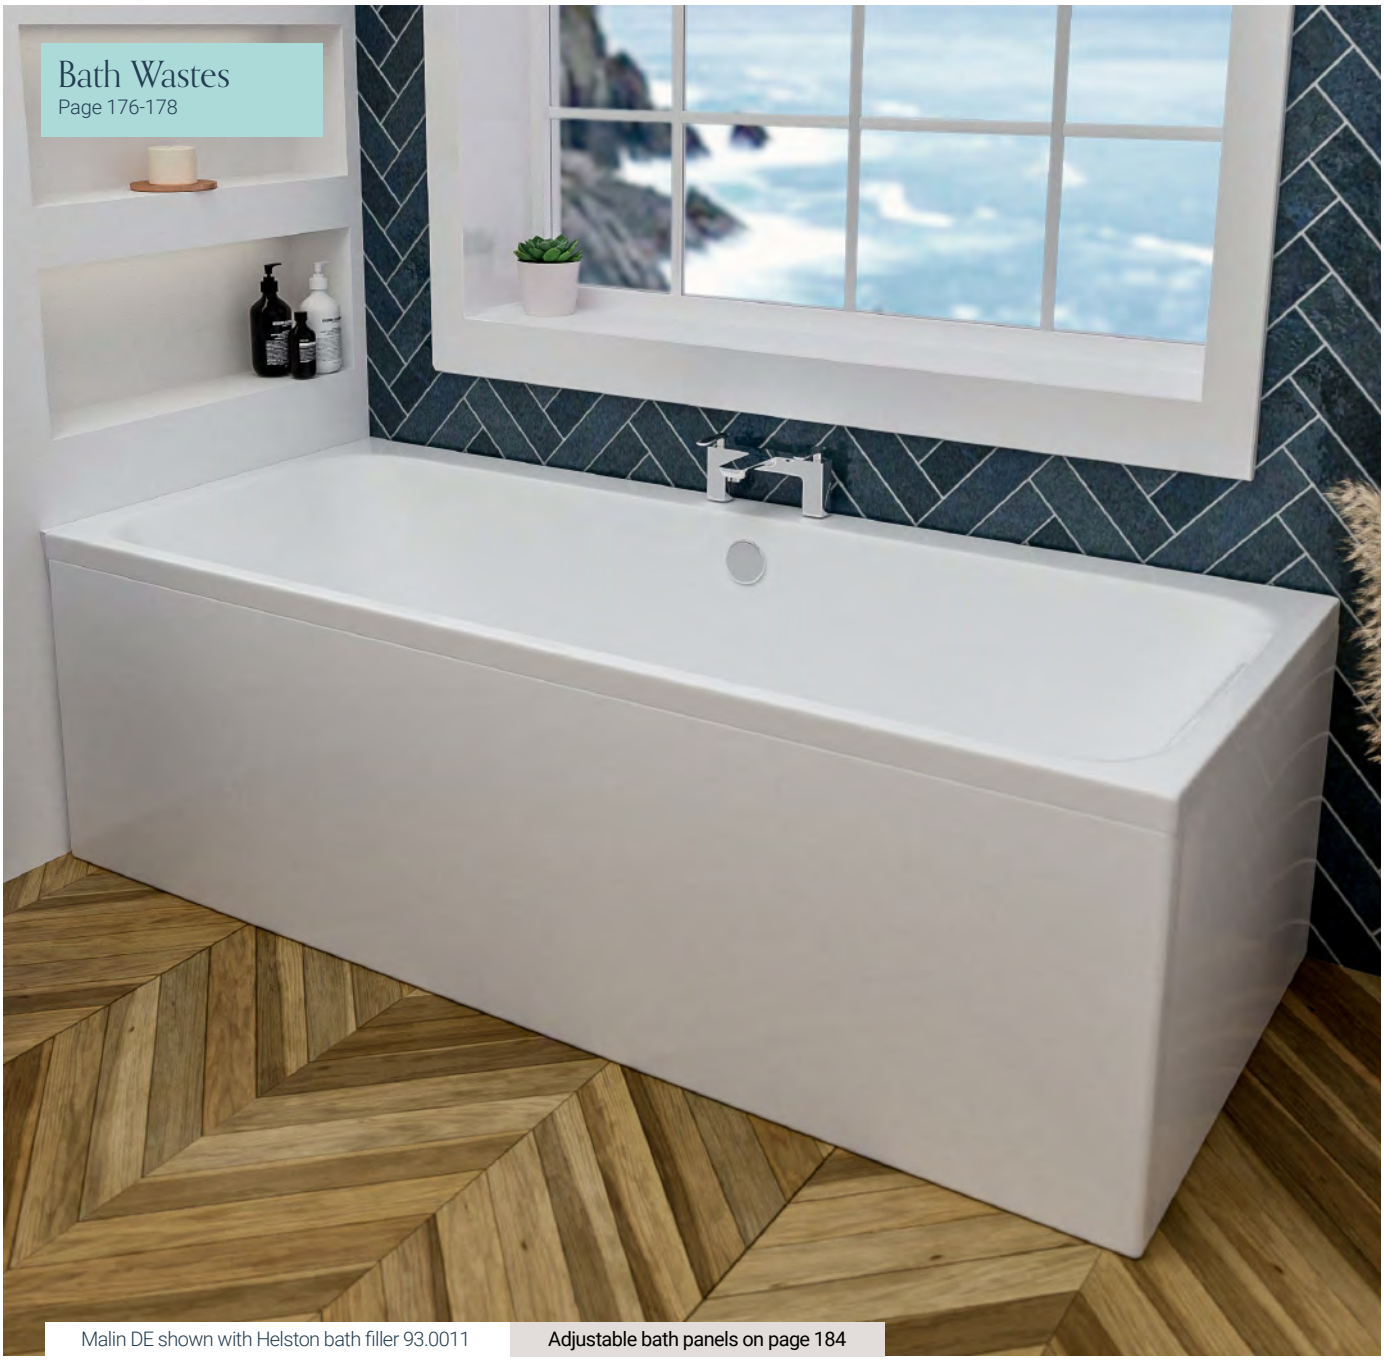

Malin is the sea region off the rugged Irish north coast, renowned for its strong sea winds, majestic landscapes, and high tides. The strength and clarity of the Malin bath is suggestive of this region, with its minimalist, clean lines, and gently curved back rest support. Featuring narrow ledges on 3 sides, the ultra-modern design of the Malin offers a larger internal bathing space than a deeper-sided bath of the same dimensions.

The Malin is available in both single-ended and double-ended bath variants and in a wide choice of sizes. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 18 DE models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Modern thin rim for maximised bathing space

Adjustable bath panels on page 184

Malin D-SHAPE BACK TO WALL

Malin is the sea region off the rugged Irish north coast, renowned for its strong sea winds, majestic landscapes, and high tides. The strength and clarity of the Malin bath is suggestive of this region, with its minimalist, clean lines, and gently curved back rest support. Featuring narrow ledges on 3 sides, the ultra-modern design of the Malin offers a larger internal bathing space than a deeper-sided bath of the same dimensions.

The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

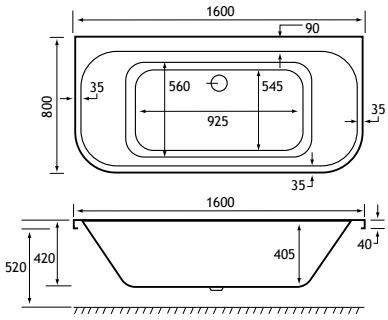

- 6 D-Shape models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 420mm depth on all D-Shape BTW models
- Modern thin rim for maximised bathing space

Shannon L-SHAPE

The robust but comfortable single ended Shannon L-Shape Shower Bath is reminiscent of the Malin region, with its minimalist, clean lines along with a wider space at one end of the bath for showering.

This space efficient bath provides a deceptively large bathing area and is 400mm at its deepest point, ensuring a luxurious, comfortable soak.

The Shannon L-Shape Shower Bath is available in left or right-handed bath variants, and in a choice of 1500 x 850mm and 1700 x 850mm. The range is offered in both 4mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 8 models
- Each available in: 4mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 400mm depth on all Shannon SE models
- Wider space at one end for showering

Lundy OFFSET CORNER

Located off the Southwestern coast of England, the Lundy Sea region includes some of Great Britain's finest Coastlines. Stretching from the shores of Cornwall, Devon, and Somerset; to the westerly tip of Wales. Designed for luxury bathing within a limited space, the Lundy can be installed in the corner of your bathroom so you can relax in luxurious comfort in a smaller bathroom space.
Within the bath is an integrated seating area that provides more options to use this bath to the full. This space efficient bath provides a large bathing area and is 420mm at its deepest point, ensuring a deep, comfortable soak.

Available in left & right-handed variants of 1500x1040. The Lundy is offered in both 5mm acrylic & ultra-strong Beauforté, which significantly extends the life of the bath.

Matt White Baths

Eastbrooks Matt White Baths stand apart, creating a unique and premium look to any bathroom.

Crafted through casting, they boast a smooth matt texture without any coatings or glaze.
This pure white surface has a remarkable ability to absorb and gently scatter light, creating a soothing ambience.

THE MATT WHITE OPTION IS NOW AVAILABLE FOR:

Whirlpool Baths

A Whirlpool system transforms your Beaufort bath into a truly relaxing space to escape reality and unwind from the comfort of your own home.

At Eastbrook Bathrooms we offer the **Aquair Whirlpool bath and Airspa Systems** for specific bath ranges. The jets feed water into the bath at pressure to offer an invigorating spa like bathing experience.

NEW! Whirlpool Fitting Colours

About Aquair:
Aquair are a family-owned business that uses koller systems in assembling their wellness systems. Koller has specialised in water and whirlpool systems for almost 45 years. It was one of the first enterprises in the world to apply Whirlpool technology in bathtubs.

Pump Information:
The pumps used on the Eastbrook Whirlpool Bath System have a line voltage of 220-240V 60Hz, input of 0.85 HP 0.65KW, output of 0.45KW and a flow rate of 210 litres per minute. **2 Year Warranty on all systems.**

RIGOROUSLY TESTED FOR DAILY USAGE

System Benefits:
- Powerful, reliable and silent pumps
- Anchored securely on the adjustable legs
- Compact dimensions allow for space saving installation
- Robust and durable in design
- Whirlpools are not supplied with tap holes or waste fittings

Safety & Testing:
Eastbrook whirlpool baths are one of the only whirlpool systems in the UK that have an electrical safety testing certification that complies to British standards and tests. Each system is tested for Electro Magnetic Frequency and Electro Magnetic Compatibility to ensure it complies with certification standards. **Tested and certified to EN 12764:2004+A1:2008**

High Quality Components

The whirlpool bath components are produced by specialists in whirlpool design and technology. They are fitted with flexible pipe work, which is smooth and doesn't retain water but strong enough to withstand any sagging.

Quality Assured

Each whirlpool bath is factory tested and approved and for absolute peace of mind we test each one under normal working conditions for 30 minutes and then a 30 minute standing period.

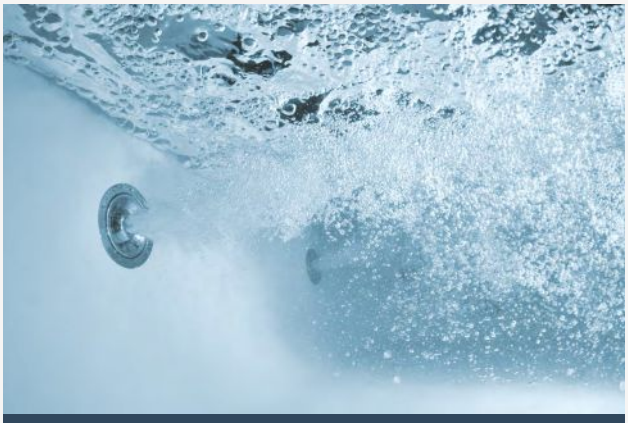

All our whirlpool systems include 'child safety suction' and are tested to BS EN 12764:2004+A1:2008.

Whirlpools

Hand Finished With Care

We have a dedicated factory with passionate personnel to fit our systems. Staff are trained at the facilities to master specific processes and have their own service van fleet to give our customers pieces of mind.

Factory Installed & Tested

Each whirlpool bath is built in-house to manage volumes and achieve the best quality possible. Independent water stations have been installed to guarantee customer a one hour testing period before purchase.

Bespoke Whirlpools

Pages: 172-174

For those want to create their own unique bathing experience that's perfect for your body. Your bespoke creation will be hand-built using high quality materials, by our teams of skilled technicians.

Whirlpool 6/8/14 Jet

Jets feed water into the bath as pressure, creating a range of massages. From gentle relaxation to sports hydro-massage.

WHIRLPOOL SYSTEMS P172

Airspa 12 Jet

Air bubbles are released into the water producing a gentle, calming massaging fizz.

AIRSPA SYSTEMS P173

Combination 6/14 Jet

The best of both systems, which can be used in unison or independently to aid relaxation.
A 12 Jet Airspa available with either a 6 or 14 Jet Whirlpool.

COMBINATION SYSTEMS P173

Stocked Whirlpools

Warranty On All Systems — 2 YEARS

Bespoke Whirlpool Bath Guide

Approximately 8 Weeks Lead Time (from confirmation of order)

(1) Select your Beaufort bath (2) Select one of the bespoke Whirlpool, Airspa or Combination systems.
(3) Consider adding one or more of the additional options to complete your relaxation experience (page 174)
(4) Add the cost of your bath, system, and additional options together to get the total cost.

Whirlpool Systems

Jets feed water into the bath as pressure, creating a range of massages. From gentle relaxation to sports hydro-massage. Not supplied with tap holes or waste fittings.

Bespoke Whirlpools

Additional Options

DESCRIPTION	CODE	£ EX VAT	£ INC VAT
Single Colour change LED Light	42.4008	370.00	444.00
Ozonator	42.4009	229.00	274.80
In Line Water Heater	42.4011	735.00	882.00
Bluetooth sound system	42.4012	1628.00	1953.60
Electronic Upgrade	42.4013	419.00	502.80

Single LED Light
One LED light that can change between seven colour settings. **Colours:** Green, Cyan Blue, Dark Blue, White, Red, Magenta & Yellow.

In Line Water Heater
Heat the water during the whirlpool cycle to improve relaxation and bathing time by compensating for natural heat loss.

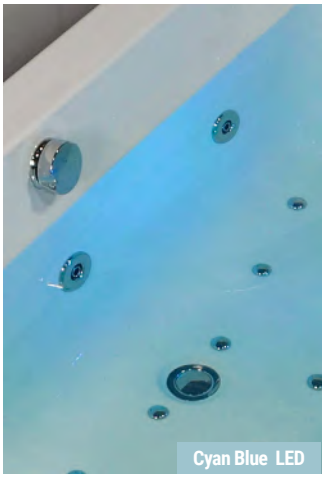

Ozonator (not suitable for Airspa)
Removes harmful bacteria during the whirlpool cycle for added hygiene.

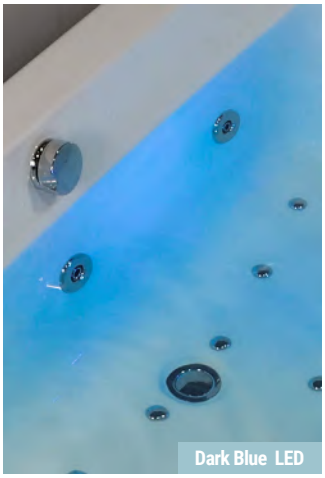

Bluetooth Connection
Play music through your bath by connecting it via Bluetooth music streaming devices.

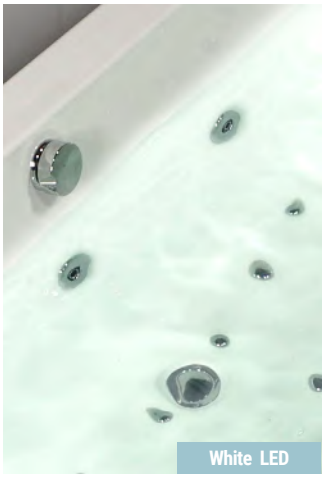

Electronic Upgrade
Removes pneumatic switch and replaces it with an electronic control pad (incudes low water sensor).

Pneumatic Mechanism
Tried and Tested

As part of our product testing, greater functionality development and compliance certification, we test our products for a simulated lifetime of use. We were looking to measure the wear and tear on this cistern and fittings based on 10 flushes a day for 30 years which is 109,500 flushes. This product has sailed past this figure and now is over 360,000 flushes!!

Compact Comfort Height Concealed Cistern	53.004	88.00	**105.60**

Jollytronic

ELECTRONIC ECO FLUSH

The hygienic, no touch flushing system with Its motion-activated infrared mechanism allows for hygienic, contact-free operation, while offering water-saving options: a quick hand wave for half a flush and a 4-second hold for a full 6L flush.

BUILT IN SENSOR
This system flushes for as long as the sensor is covered which allows the user to flush the toilet for just the right length of time needed to clear.

PROVEN PERFORMANCE
Endurance tested to 200,000 flush cycles, the TOUCHLESS system ensures durability and reliability.

Jollytronic Eco Flush

2000mm Sliding Door*	1970mm-2000mm	876mm	58.209	663.00	**795.60**

Adjustment varies when fitted with a side panel. *Due to tray size limitations, not compatible with In-Line panels.

When fitting with 2 side panels (as illustrated) you will need to select the next smallest door size from your selected tray. For example: for a 900mm tray you will need an 800mm door. If the difference between the tray and the door is 100mm you will also need TWO extension profiles. Please call 01452 317890 for assistance if you are in any doubt.

VOLENTE BIFOLD DOOR

Luxurious, easy to clean, contemporary framed enclosure in 6mm tempered safety glass, height 1850mm.

FEATURES

- 10 Year manufacturer's guarantee*
- Easy clean glass
- Concealed fittings
- Trays available to match
- 3 side installation possible
- 6mm Tempered safety glass
- Polished Chrome

*With conditions

When fitting with 2 side panels (as illustrated above) you will need to select the next smallest door size from your selected tray. For example: for a 900mm tray you will need an 800mm door. If the difference between the tray and the door is 100mm you will also need TWO extension profiles. Please call 01452 317890 for assistance if you are in any doubt.

Walk-In Range

Tempered Glass - 8mm

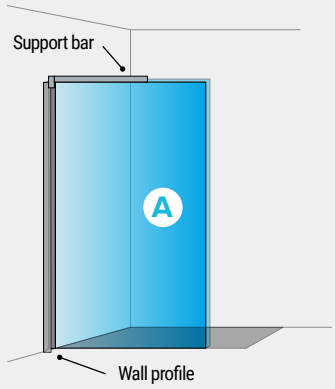

1950 mm High

VALLIANT - TYPE A

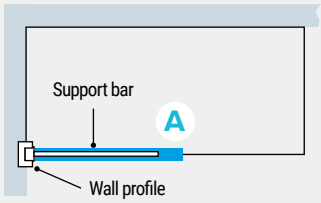

Type A panels are fixed to the wall with a wall profile, the panel also comes with one wall support bar.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel A
Comes with 1 wall profile and 1 support bar.

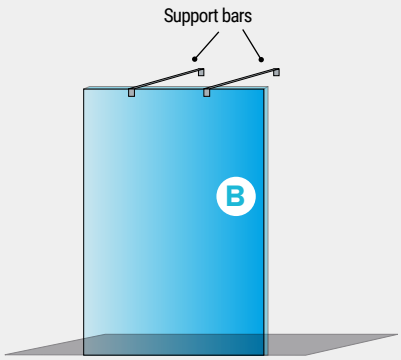

Panel A - Example
58.356 800mm side panel including support bar and wall profile (A).

VALLIANT - TYPE B

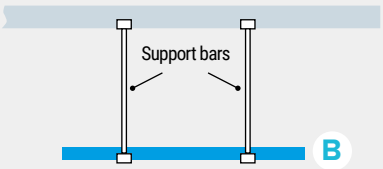

Type B panels can only be used in a walk-through situation, the panel is a single pane of glass and comes with two wall support bars only. This can be used with two type C, 250mm panels, which contain a corner profile so they can be attached to the Type B panel. They can both be installed with a tray or in a wetroom situation.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel B - Comes with 2 support bars.
(No wall profile supplied).

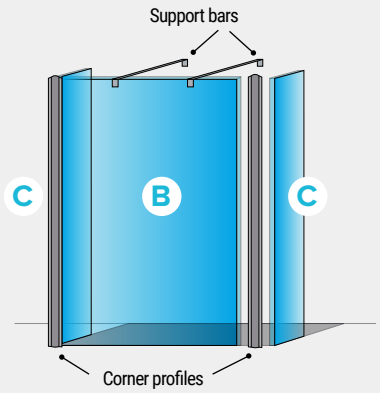

Panel B - Example
58.362 1200mm walk-in panel with two support bars (B).

VALLIANT - TYPE C

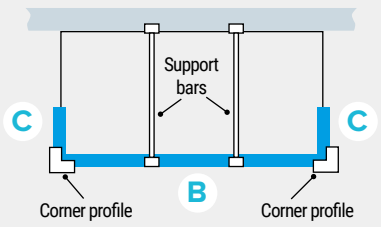

Type C is a single pane of glass with a corner profile, this can only be attached to another pane of glass (no wall support bar is provided with Type C). Type A/B & C can be used together to create different walk-in situations as illustrated, see page opposite and below. However please note the wall support bar from Type A/B can be used on either pane of glass to suit your requirements.

FEATURES
- 10 Year manufacturer's guarantee*
- 1950mm Height
- Easy clean glass
- 8mm Tempered safety glass

*With conditions

Panel C - Comes with 1 corner profile (No wall profile supplied), shown with Type B panel.

Panel C - Example
58.362 1200mm walk-in panel with two support bars (B), 2 x 58.363 250mm end panels (C).

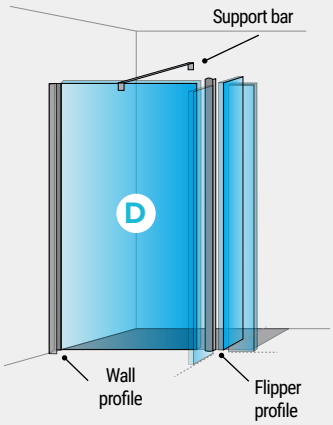

Walk-In Range

VALLIANT - TYPE D

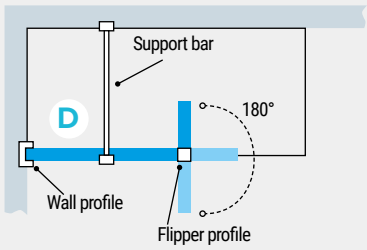

Type D contains a panel of glass with a wall profile, plus a 300mm flipper which is hinged and rotates 180 degrees. Type D must be fixed to the wall, it cannot be fixed to another pane of glass.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel C - Comes with 1 wall profile, support bar and a 300mm flipper.

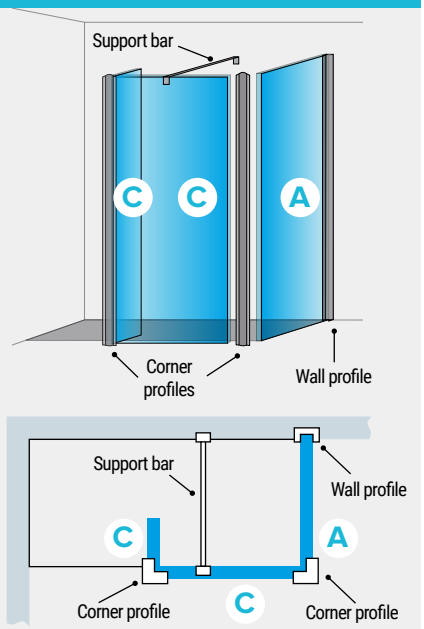

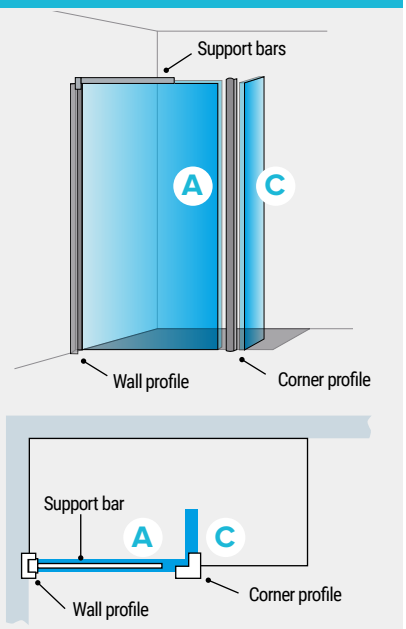

Panel C - Example
58.351 800mm front panel with wall profile and 300mm flipper (D).

Panel A
Comes with 1 wall profile and 1 support bar.

A&D Combination

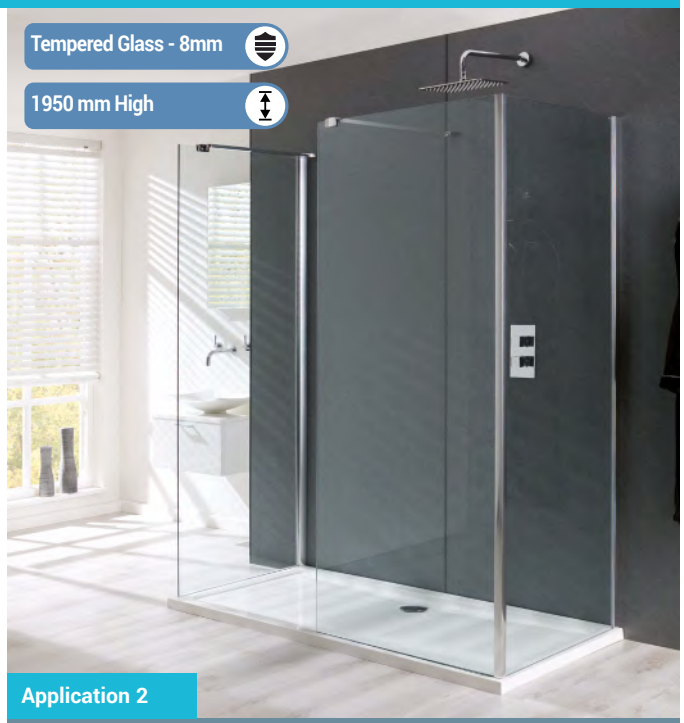

Walk-In Range

VALLIANT - TYPE A&C - COMBINATIONS

Application 1

58.357 900mm side panel including support bar and wall profile (A), 58.367 900mm end panel with corner profile (C)

Application 2

58.367 900mm end panel with corner profile (C), 2 x 58.357 900mm side panel including support bar and wall profile (A)

Type C is a single pane of glass with a corner profile, this can only be attached to another pane of glass (no wall support bar is provided with Type C). Type A & C can be used together to create different walk-in situations as illustrated, can also install a 180 degree flipper kit retrospectively. However please note the wall support bar from Type A can be used on either pane of glass to suit your requirements.

Biava Wet Floor System

BIAVA WET FLOOR

This product enables you to have a bathroom with a showering area at the same level as the rest of the room giving the benefit of complete level access. It is especially helpful for wheelchair users, the elderly and children. This affordable system incorporates the optimum gradient, drainage and waterproofing all in one package.

The product is able to incorporate benefits such as stylish and elegant designs, flexibility, ease of cleaning, level access, low maintenance with an amazing wow factor and rarely takes more than half a day to install. This proven system comes from a manufacturer with over 300,000 installations, available now through the Eastbrook Biava Brand, with its excellent backup and customer service. It will complement the eastbrook range of walk-in panels.

Frequently asked questions about the floor former:

What is a floor former?

A floor former is often mistaken for a shower tray but it is not, in fact it is a preformed floor base with a built in gradient. Its purpose is to offer a simple means of forming the gradient within the construction of either existing or new floors. On completion the floor former will be completely covered with tiles, with only the Stainless Steel Grate visible.

Does it have to be sunk into the floor?

The floor former has been designed to be recessed to a flush finish with the prepared floor. In circumstances where the floor cannot be breached the entire floor can be raised to accommodate the floor former.

How thick is it?

The floor former is 30mm thick.

Is it available in different sizes?

There are 4 different sizes:
1000mm x 1000mm
1200mm x 900mm
1400mm x 933mm
1600mm x 1067mm

Does it need to be fitted level?

It is extremely important that the floor former is fitted level. This is easily checked by placing a spirit level on the perimeter of both sides of the former. Because the gradient is built into the floor former it will only function properly if it is level around its perimeter.

How is the floor drain fitted?

The gully flange fits into the rebate making the top of the gully flange a flush fit with the surface of the floor former.

Is the gully cleanable from the top?

Yes, the gully is accessible from above meaning it can be cleaned without removing the entire drain. This is achieved by the removal of the grating or covers, followed by the dip tube, allowing easy access to the sump of the trap for cleaning.

What about different thicknesses of tiles?

To compensate for different thicknesses of tile the gully has a height adjustable ring which can take a tile thickness of between 6mm-16mm. Also included is a 10mm extension ring to increase the height up to 26mm if required.

What if there is a joist in the way of the gully?

The former has been designed with the waste off centre so that if a joist is in the way of the gully the floor former can be rotated either 90 or 180 degrees, which in most cases will reposition the gully away from the joist. A joist must never be notched or cut to allow installation of the trap.

Can it be fitted in timber floors?

Yes, the floor former is designed to be installed into timber floors. Please refer to the full installation instructions.

Can it be fitted in screeded or concrete floors?

Yes, the floor former can be installed into screeded or concrete floors. Please refer to the separate installation instructions available on request. Special care should be taken in this instance to avoid any obstructions such as cables or pipe work installed under the floor.

Can it be used with underfloor heating?

Yes, it is suitable for all types of underfloor heating.

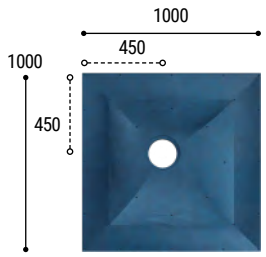

Biava Wet Floor System

THE EASTBROOK BIAVA WET FLOOR SYSTEM CONSISTS OF:

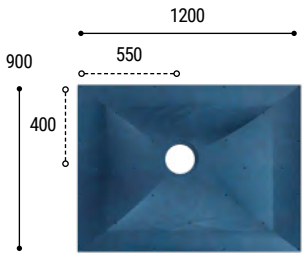

The Biava Floor Former

There are several sizes of lightweight easy-to-install floor formers with 100% rigidity and a consistent 1:40 gradient. These formers feature a unique four way floor design giving the benefits of clear linear finish and very high flow rate of water to the drainage waste. They are also designed to fit on both timber joisted floors and concrete floors

DRAINAGE WASTE

The shower waste drainage system is fully adjustable and flexible for those awkward joist situations that add so much installation time with other systems.

The waste is adjustable to take tiles from 6 - 26mm.
There is also an alternative solution for Vinyl floors.

Waste efficiency decreases when shower head is positioned directly above waste.

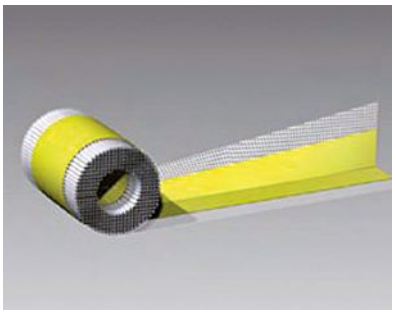

NB Drainage waste is included with the Biava floor former.

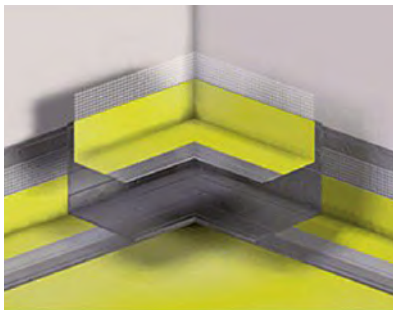

BIAVA 5M² MEMBRANE/TANKING KIT

The waterproof tanking kit is quick and easy to install and acts as a key for the tile adhesive as well as being the water proof barrier. Can be bought and used separately to waterproof any bathroom without the need to use a floor former. With some quick set adhesives, tiling can begin almost immediately.

FEATURES
- Quick & easy to install
- 5 metre kit includes joint tape, 4 internal corners and 1 external corner
- 10 year warranty

*End of tray opposite waste has built-in drying area. Waste sold separately.

VOLENTE RECTANGULAR SHOWER TRAYS

A versatile range of trays that combines the durability and warmth of an acrylic top surface with the rigidity and solid feel of stone resin. Can be installed using the appropriate leg and panel pack for even greater ease of fitting.

FEATURES

- 40% Lighter than a high wall stone resin tray
- Reinforced high strength resin marble material
- Made with WRAS approved resins
- Adjustable legs (within the leg kit pack) supplied with ultra-strong self adhesive pads.

Quadrant Trays

Safety
The Vanguard's outer white nanocoat surface is created with a soft grip texture; purposely designed for safety whilst showering.

Quality
With just one touch you will feel the nature inherent within the Vanguard Tray ranges Mineral Composite. This material combination attains a whole new level of durability withinthe bathroom enviroment:

- 75% Marble Stone
- Compressed Resin Bond
- Nanocoat External Layer

By having the external white nanocoat surface, the Vanguard range has an insusceptibility to bacterial growth and absorption of water. This ensures a long lasting quality and ease of care

Mineral Composite Profile

Vanguard Trays

Design

The Mineral Composite enables an extensive range of shapes to be created and frees up the imagination of designers. With a 0-to-3mm tolerance and a minimum radius of 2mm, the Vanguard is precise by its very nature. Effortlessly elegant.

30MM HEIGHT SLIMLINE DESIGN

SOFT GRIP TEXTURED BASE

*Subject to cleaning condition
*Conforms to BS7976

VANGUARD 25 SHOWER TRAYS

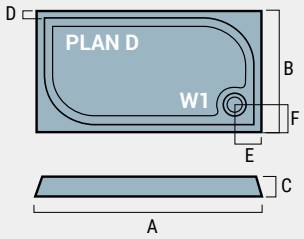

Square Trays

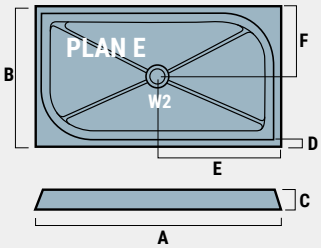

Rectangular Trays

Vantage Trays

VANTAGE SQUARE TRAYS

Square Tray - Plan A Shown

FEATURES

- All trays have a flat underside making installation and levelling even easier.
- Slimline, at 40-45 mm height they're among the sleekest on today's market.
- All trays are acrylic capped and constructed from a polyurethane resin mix.
- Light stone resin trays allows for easier handling and fitting, while still maintaining the strength of conventional trays.
- Adjustable legs (within the leg kit pack) supplied with ultra-strong self adhesive pads.

Vantage Trays

VANTAGE QUADRANT TRAYS

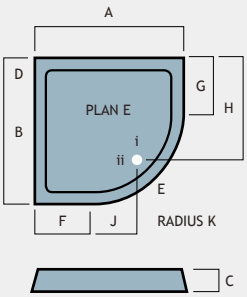

Quadrant Tray - Plan E Shown

FEATURES

- All trays have a flat underside making installation and levelling even easier.
- Slimline, at 40-45 mm height they're among the sleekest on today's market.
- All trays are acrylic capped and constructed from a polyurethane resin mix. Perfect for a modern and contemporary wet room design.
- Up to 50% lighter than conventional stone resin trays allowing for easier handling and fitting, while still maintaining the strength of conventional trays.
- Adjustable legs (within the leg kit pack) supplied with ultra-strong self adhesive pads.

**Hyrdropanel cleaner is required on surface and panels.

H-Forma Hydropanel Instructions

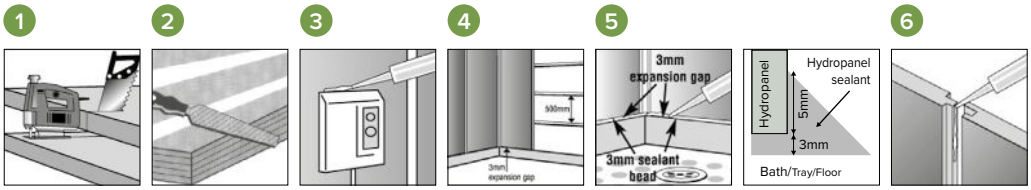

Instructions

Tongue & Groove or square cut wall panels

General notes on fixing panels

Panels can be fixed directly to battens or walls using Hydropanel panel adhesive. It is recommended that the panels are fixed to battens to provide air space behind. Fix treated timber battens approximately 45mm x 21mm horizontally with one at the head and one at the base of the panels. Additional horizontal battens should be a maximum distance of 500mm apart. They should be parallel to each other and plumb to give a solid ground for fixing the panels with Hydropanel adhesive. Additional battens should be used behind wash hand basins, towel rails and other heavy items to give a secure fixing.

Panel Preparation

1. Cutting Panels:
Cut panel with pattern facing upwards using a handsaw. If using an electric saw, cut panel with laminate face downwards.

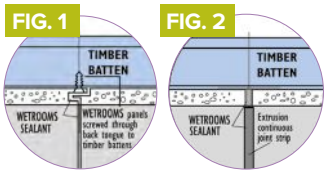

2. Cut Edge Filing:
The panel edge should be filed at a slight angle away from the laminate edge.

3. Pipes and Accessories:
All pipes and accessories require a 3-4mm clearance, allowing them to be sealed with a bead of Hydropanel sealant. If fitting a collar, first seal with Hydropanel sealant.

4. Timber Battens:
(45mm x 21mm) Use battens if walls are uneven, at a maximum distance of 500mm apart. Fix panels to battens using Hydropanel adhesive.

5. Panel Fitting:
Fit panels 3mm above bath, shower tray or floor, with edge downwards. Seal gap with Hydropanel sealant. It is imperative that all edges are sealed and the sealant is taken 5mm up the face of the panel at a 45° angle.

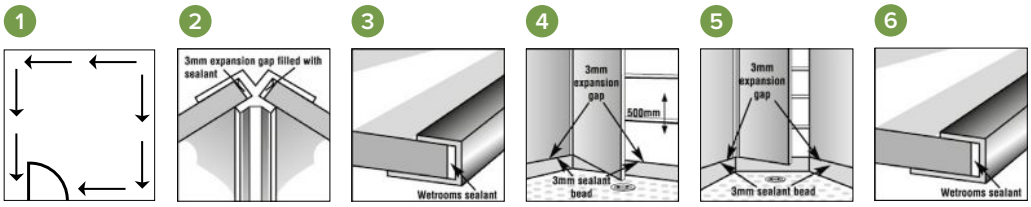

6. Panel & Decor Strip Sealing:
In wet areas such as a bathroom, use Hydropanel sealant inside each profile prior to inserting panel.

Hydropanel

Tongue & Groove Recommended for continuous panel runs

The vertical edges are tongue and grooved to give the finished panelling a smooth, easily maintained surface. Panels have asymmetrical tongue and grooved vertical edges giving 5mm of joint overlap. A waterproof joint is assured when sealed with Hydropanel sealant.

Installation

1. Where to start:

Panel in both directions around the room, starting at the corner furthest from the door. Fit the last panel above the doorway, placed in position tongue first and swung into position. All panels must be correctly aligned and plumb. Use Hydropanel panel adhesive to fix panels to battens. Seal all panel joints using Hydropanel sealant.

2. Begin Panelling:

Fix a Hydropanel internal profile in position first ensuring that it is plumb. Apply Hydropanel sealant to the recess of the profile. Apply Hydropanel adhesive to the battens. After removing the smaller tongue, or cutting to size insert the first panel. Continue to panel away from the corner in both directions, fixing panels to battens with Hydropanel adhesive, and sealing joins with Hydropanel sealant.

3. Continue Panelling:

Continue panelling around the room fixing each panel to the battens with Hydropanel adhesive, or screws through the back lip of grooved edge. Seal tongue and groove joints using Hydropanel sealant. Where appropriate use internal and external corner profiles, sealing with Hydropanel sealant.

Square cut with aluminium joint extrusions which allow for on site cutting, the edges being covered by aluminium trim extrusions. This will facilitate for faster installation.

4. Fit the shower tray hard against or cut into the wall. First cut the panels and profiles to size. Fix a Hydropanel internal profile in position ensure that it is plumb. Apply Hydropanel sealant into profile and insert panels. Fix panels to battens using Hydropanel panel adhesive.

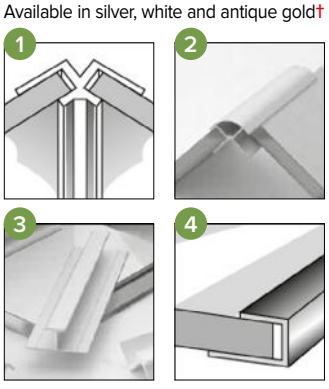

5. First panel is fitted as for the two panel shower enclosure. Put a second internal corner profile onto the edge of second panel, and apply Hydropanel adhesive to the battens. Insert other edge into profile already attached to the wall, and swing into place forming back of enclosure. Fix profile to wall, insert third panel and glue to wall. Ensure a generous bead of Hydropanel sealant is applied into all the profiles.

6. Finish outer panel edges with U-Trim, applying a bead of Hydropanel sealant into the U-Trim. Seal all gaps around the tray with Hydropanel sealant prior to installing the shower door or side panel.

Use the H continuous run decorative aluminium joining and stacking profile to join panels and install in a similar manner to tongue and groove panelling, applying a generous bead of Hydropanel sealant into the profile.

Aluminium Profiles

Available in silver, white and antique gold†

1. Internal corner profile:
2400mm. Used on all internal 90° corners sealing with Hydropanel sealant.

2. External corner profile:
(2500 mm) Used on 90° external corners, sealing with Hydropanel sealant.

3. Joining and stacking profile:
(2500 mm) Used to mount panels side by side, or above each other, sealing with Hydropanel sealant.

4. U-TRIM:
(2500 mm) Finishing touches and cap for square cut edge of panel, sealing with Hydropanel sealant.

Hydropanel Adhesives and Sealants

It is recommended that only Hydropanel's own brand adhesives and sealants are used. Approximately 1 cartridge of Hydropanel adhesive and 1 cartridge of Hydropanel sealant is required for a 800 mm wide panel.

Cleaning and maintenance

The hardwearing surface of the panelling and aluminium profiles can be hygienically cleaned with Hydropanel spray cleaner which is a mild non-abrasive cleaner with anti-bacterial cleanser.

Abrasive cleaners or bleach must not be used.

A large variety of possible applications:

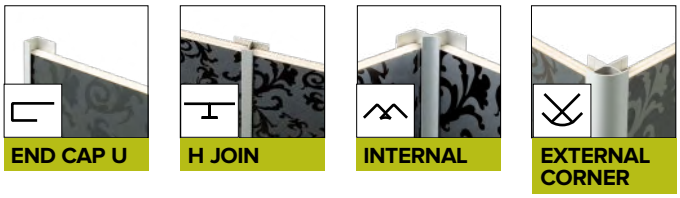

DOMESTIC: Walls of showers, kitchens, wet areas, utility rooms, conservatories, extensions etc.

COMMERCIAL: Hotels (bathrooms, kitchens, wet areas, reception areas, etc). Cafeterias (food preparation areas, kitchens, toilet facilities, etc) offices, shops, hospitals, schools, laboratories, etc.

- Very simple to install
- Can be cut to size very easily
- Save up to 50% of the cost of conventional tiling
- Ideal for bathrooms, showers, kitchens etc
- A wide range of stunning decors
- Excellent insulation and sound proofing
- Recyclable

Fix Directly On To Wall

Fix Directly Onto Batten

Assembly Instructions

There are two ways to assemble the tongue and groove wall panels. Either glue or fix directly on to the wall if the surface is relatively even and dry. Use 'Wetwall Adhesive' or fix on to a wooden frame. Fixing to timber battens is easy: a staple gun, hammer and nails, screws or 'Wetwall Adhesive' can be used.

To make the wooden frame, strap the wall with wooden battens approx. every 50cm according to the direction of your panel assembly. To install the panels vertically, lath the wall horizontally and vice versa. If the panels are to be placed diagonally, the wall may be lathed either horizontally or vertically.

Start with installing the preferred P.V.C. profiles on the sides (start at edge trim, or inside corner).

Nail, staple, screw or glue the first panel to the wooden battens. Silicone seal all ends, joints and profiles in a wet area such as a shower or around a bath with Wetwall sealant.

Insert the next panel (side with tongue) into the groove of the previous panel. Nail, staple, screw or glue the panel along the tongue on the opposite side. Proceed in a similar manner for the fixing of all panels.

SEALING: To seal the joint between two panels we recommend using 'Wetwall Silicone Sealant' when sealing in wet areas, in the shower or around the bath.

CUTTING: We recommend when using a precision handsaw, cutting the panel with the decorative side upwards. When using an electric saw cut panel with decorative side downwards.

Benefits Of Using Wetroom Adhesives, Sealants And Cleaners

Wetroom Sealant is of the highest quality silicone. It is a fast curing, low modulas, neutral, fungicidal silicone sealant, developed for use with Wetroom panelling, and for general sanitary use.

- Wetroom Sealant forms a strong secure bond even between two non-porous surfaces.
- Wetroom Sealant has a high degree of elasticity, which ensures that the bond remains firm during the natural expansion and contraction of the panelling.
- Wetroom Sealant is designed for high pressure and pumped shower systems.

Panel must be wiped down after use.

It is required the only Wetroom's own brand of adhesive sealant and cleaner are used.

Abrasive cleaners and bleaches must not used on Wetroom panelling.

Accessories

Description	Code	£ Ex VAT	£ Inc VAT
Hydropanel Adhesive 310ml*	32.005	16.00	**19.20**
Hydropanel Sealant 310ml*	32.006	16.00	**19.20**
Hydropanel Cleaner 500ml*	32.007	15.00	**18.00**

*Normal requirement one tube per panel. For a packet of four panels, approximately one cartridge of Wetroom adhesive and one cartridge of Wetroom sealant is required.
**Hyrdropanel cleaner is required on surface and panels.

TRADITIONAL THERMOSTATIC SHOWER VALVES

An elegant Edwardian-styled shower incorporating the latest technology. These valves are manufactured from solid brass and are suitable for use with all recognised installations including combination boilers and gravity systems. This high-performance shower comes complete with precise thermostatic control and an anti-scald device, making it extremely safe and simple to use.

68.0019 LP2

Note: At maintained equal inlet pressures with open outlet at mid blend temperature

Shower Valves

TRADITIONAL EXPOSED TWIN THERMOSTATIC VALVE

Designed to coordinate with our taps and mixers, these quality, high performance valves are manufactured from solid brass. Separate flow and temperature controls mean the showers are easy to adjust and safe to use, making them ideal for a family environment. The valves are suitable for use with all recognised installations, including combination boilers and gravity systems.

Eastbrook Co Terms & Conditions

We deliver all goods on our own dedicated transport fleet to ensure a speedy and problem-free service, however, in the unlikely event that goods are delivered wrong or damaged, it is the responsibility of the customer to ensure sufficient time is allowed for a replacement to be sent.

1. DEFINITIONS

In these terms and conditions, the following words shall have the following meanings:
'Buyer'
shall mean any person, Eastbrook or company, to whom Eastbrook supplies Goods or Services or with whom Eastbrook enters into negotiations for the supply of Goods or Services.
'Eastbrook'
shall mean Brian Michael Doouss and Nicolas Brian Doouss (each a "Partner" together the "Partners") trading as "Eastbrook Co." or "Woodstock".
'Goods'
shall mean products, articles or things which are supplied by or which are the subject of negotiations for supply by Eastbrook to the Buyer.
'Services'
shall mean services are supplied by or which are the subject of negotiations/ or supply by Eastbrook to the Buyer.

2. MAKING THE CONTRACT

2.1
Eastbrook's salesmen are not authorised representatives and are not authorised to accept confirm or vary any order nor to make any representation or promise on Eastbrook's behalf
2.2
Any estimate/quotation which comprises an invitation to treat is open for a period of 30 days only from the date thereof, provided that Eastbrook has not previously withdrawn it. Any order issued by the Buyer is subject to acceptance by Eastbrook and a contract will only be formed when Eastbrook has accepted the Buyer's offer to buy in writing. Any offer made by the Buyer must be confirmed in writing by the Buyer.
2.3
All orders are placed under these terms and conditions alone.
2.4
These terms and conditions exclude any other terms and conditions inconsistent therewith which a Buyer might seek to impose even though such other terms and conditions may be submitted in a later document and/or purport to exclude or supersede any terms or conditions with them or may be contained in any offer acceptance or counter-offer made by the Buyer.
2.5
No variation of these terms and conditions is permitted unless expressly accepted by a Partner of Eastbrook in writing.

3. CANCELLATION

3.1
No cancellation by the Buyer is permitted except where expressly agreed by a Partner of Eastbrook in writing.
3.2
The Buyer will in the event of agreed cancellation by the Buyer indemnify Eastbrook fully against all expenses incurred up to the time of such cancellation together with by way of liquidated damages a sum of 33 1/3% of the contract price which shall be paid by the Buyer to Eastbrook Forthwith.

4. PRICE

4.1
All prices quoted are those ruling at the date of dispatch or supply.
4.2
Unless otherwise stated all prices quoted are nett, exclusive of VAT, and in the case of Goods ex works.
4.3
Eastbrook reserves the right at any time prior to delivery of the Goods or supply of Services to adjust the price to take account of any increase in the cost of raw materials, labour or services or any currency fluctuations affecting the cost of imported materials or services.

5. TERMS OF PAYMENT

5.1
All sums become due and payable under these terms and conditions not later than 14 days from date of invoice.
5.2
Time for payment shall be of the essence.
5.3
The Buyer shall have no right to set off, statutory or otherwise.
5.4
If the Buyer (being a Company) has a petition for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed or all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangement with its creditors or commits a material or serious breach of this Agreement (and in the case of such a breach being remediable fails to remedy it within 7 days of receiving notice to do so)' he will be deemed to have repudiated the Contract.
5.5
Eastbrook reserves the right at any time at its discretion to demand security for payment before continuing with or delivering any Order, supplying any Goods or Services.

6. DELIVERY

6.1
Delivery will be deemed to have been effected when the Goods are ready for collection at the premises of Eastbrook or as the case may be the premises of the suppliers to Eastbrook in circumstances where the Goods are delivered direct from such suppliers.
6.2
Time of delivery is not of the essence.
6.3
Eastbrook shall not be liable for any loss whatsoever or howsoever arising caused by its non-delivery or by the failure to make Goods ready for collection on the due date.
6.4
Eastbrook reserves the right to make delivery by instalments and to tender a separate invoice in respect of each instalment.
6.5
When delivery is to be by instalments or Eastbrook exercises its right to deliver by instalments under clause 6.4 hereof or if there be delay in the delivery of any one or more instalments for whatever reason this will not entitle the Buyer to treat the contract as repudiated and/or to damages.
6.6
Deviations in quantity between the Goods delivered and Goods ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Goods or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Goods delivered.

7. SUPPLY OF SERVICES

7.1
Time for the supply of Services is not of the essence.
7.2
Eastbrook shall not be liable for any loss whatsoever or howsoever arising caused by its failure to supply Services or any part thereof on the due date.
7.3
Eastbrook reserves the right to supply Services by instalments and to tender a separate invoice in respect of each instalment.
7.4
When the supply of Services is to be by instalments or Eastbrook exercises its right to supply Services by instalments under clause 7.3 hereof or if there be a delay in the supply of any one or more instalments of Services for whatever reason this will not entitle the Buyer to treat the contract as repudiated or to damages.
7.5
Deviation in the quantity between Services supplied and the Services ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Services or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Services supplied.

8. RISK AND THE PASSING OF PROPERTY IN GOODS

8.1
Risk in the Goods shall pass to the Buyer when the Goods are delivered.
8.2
Notwithstanding risk in the Goods passing in accordance with clause 8.1 hereof title in the Goods shall not pass to the Buyer until whichever shall be the first to occur of the following:-
8.2.1
payment being received by Eastbrook for the Goods and Services and no other amounts then being outstanding from the Buyer to Eastbrook in respect of other Goods or Services supplied by Eastbrook
8.2.2
the Buyer selling the Goods in accordance with the provisions of these terms and conditions in which case title to the Goods shall be deemed to have passed to the Buyer immediately prior to delivery of the Goods to the Buyer's customers; and

8.2.3
Eastbrook waiving its rights under this clause 8.2 in respect of specified Goods or Services whereupon title to the said Goods shall forthwith vest in the Buyer.
8.3
The Buyer is licensed by Eastbrook to use or to agree to sell the Goods delivered to the Buyer subject to the express condition that the entire proceeds of any sale are held in trust for Eastbrook and are not mixed with other moneys or paid into an overdrawn bank account and shall at all times be identifiable as Eastbrook's moneys.
8.4 Until title to the Goods passes:
8.4.1 The Buyer will hold the Goods as fiduciary agent and bailee for Eastbrook;
8.4.2
the Goods shall, subject to clause 8.3, be kept separate and distinct from all other property of the Buyer and of third parties and in good and substantial repair and condition and be stored in such a way as to be clearly identifiable as belonging to Eastbrook;
8.4.3
Eastbrook may at any time revoke the power of sale and use contained in clause 8.3 by notice to the Buyer if the Buyer is in default for longer than 14 days in the payment of any sum whatsoever due to Eastbrook (whether in respect of the Goods or any other Goods or Services supplied at any time by it to the Buyer) or if Eastbrook has bona fide doubts as to the solvency of the Buyer;
8.4.4
The Buyer's power of sale and use contained in clause 8.3 shall automatically cease if the Buyer has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or becomes bankrupts or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogues act or proceeding under foreign law;
8.4.5
upon determination of the Buyer's power of sale and use pursuant to clause 8.4.3 or clause 8.4.4. the Buyer shall place any of the Goods in its possession or under its control and unsold at the disposal of Eastbrook and Eastbrook shall be entitled to enter upon any premises of the Buyer for the purpose of removing such Goods.
8.5
Eastbrook shall at any time be entitled to appropriate any payments made by the Buyer in respect of any Goods or Services in settlement of such invoices or accounts in respect of such Goods or Services as Eastbrook may in its absolute discretion think fit notwithstanding any purported appropriation to the contrary by the Buyer.

9. LIEN AND STOPPAGE

9.1
Until such time as the title in the Goods has passed to the Buyer Eastbrook has the right to withhold delivery if the Buyer (being a Company) has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law.
9.2
When the title in the Goods has passed to the Buyer and the time for payment has falled due but payment has not been made or if the Buyer (being a Company) has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purposes of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law Eastbrook has
9.2.1 a lien on the Goods so long as Eastbrook is in possession of them
9.2.2 a right of stoppage in transit
9.2.3 a right of resale
9.3
For the avoidance of doubt it is hereby declared that nothing in this clause shall affect the rights given to Eastbrook by ss.38-48 of the Sale of Goods Act 1979.

10. INSPECTION/SHORTAGES

10.1
The Buyer is under a duty to inspect the Goods forthwith on delivery and satisfy himself as to the due performance of Services forthwith after supply.
10.2
Eastbrook shall be under no liability for any defects or shortages that would be apparent on careful inspection if the terms of this clause are not complied with, and, in any event will be under no liability if a written complaint is not delivered to Eastbrook within 7 days of delivery or supply detailing the alleged detect or shortage.
10.3
In all cases where defects or shortages in respect of Goods are complained of Eastbrook shall be under no liability in respect thereof unless an opportunity to inspect the Goods is given to Eastbrook before any use is made thereof or any alteration or modification is made thereto by the Buyer.
10.4
Subject to clauses 10.2 and 10.3 Eastbrook shall make good any defect or shortage in the Goods and where appropriate replace any Goods damaged in transit as soon as it is reasonably able to do so, but otherwise shall be under no liability whatsoever or howsoever arising from such defect, shortage or damage.
10.5
Subject to clause 10.4 Eastbrook shall remedy any defect in the supply of Services as soon as it is reasonably able to do so but otherwise shall be under no liability whatsoever or howsoever arising from such defect

11. WARRANTY

11.1
No representation or warranty is given as to the suitability or fitness of the Goods or Services for any particular purpose and the Buyer shall satisfy himself in this respect and shall be totally responsible therefore
11.2
If the Goods are in such a state or the Services so defectively supplied as would but for this condition entitle the Buyer to repudiate the contract and/ or claim damages from Eastbrook Eastbrook reserves the right to repair or replace the Goods or perform the Services (or the relevant part thereof) again.

12. LIABILITY

12.1 Introduction
12.1.1
Nothing in this clause 12 shall be deemed to exclude or restrict Eastbrook's liability for death or personal injury resulting from Eastbrook's negligence.
12.1.2
Each of the sub-clauses in this clause 12 is to be treated as separate and independent.
12.1.3
Eastbrook is willing to undertake liability additional to that provided by this clause 12 in exchange for a higher price.
12.2 Exclusion
12.2.1
Eastbrook agrees that if any defect caused by faulty design, manufacture, materials or workmanship is discovered during the period of 3 months commencing with the date of delivery or supply, Eastbrook will remedy any defect at its own expense or, in the case of Goods if it chooses to do so, replace them. Defects caused by abnormal use, misuse, neglect or wilful or accidental damage are not covered by this clause.
12.2.2 The Buyer cannot claim the benefit of clause 12.2.1 above unless:
-
he informs Eastbrook of the relevant defect in writing within 7 working days of discovering it; and
-
in the case of Goods, he returns the Goods to Eastbrook at his own expense.
12.2.3
The risk of accidental loss whilst any Goods are being returned to Eastbrook will be borne by the Buyer.

12.2.4
Notwithstanding clause 12.2.1 above, if the manufacturer of any Goods has provided any guarantee of such Goods for a period longer than three months (a "Manufacturer's Extended Guarantee"), Eastbrook shall use its reasonable endeavours to transfer to the Buyer the benefit of any such Manufacturer's Extended Guarantee in respect of the Goods, provided that Eastbrook may in its absolute discretion elect to do so only at the cost of the Buyer.
12.2.5
Any Manufacturer's Extended Guarantee is for the Buyer only who must complete a return and registration form within 30 days of purchase. Manufacturer's Extended Guarantees are not transferable to third parties and do not cover previously installed products such as ex showroom displays. Failure to complete and return a registration form to Eastbrook within the 30 day period will result in the guarantee on such Goods being limited to that stated in clause 12.2.1 above.
12.2.6
Manufacturer's Extended Guarantees cover Goods which are used for normal domestic use only and are not applicable to Goods which are used for commercial use (i.e. hotels, residential homes, leisure facilities etc.).
12.2.7
In the event that a manufacturer of Goods providing a Manufacturer's Extended Guarantee pursuant to clause 12.2.3 above ceases trading and/ or no longer honours such guarantee, Eastbrook shall have no liability whatsoever to the Buyer with respect to such Manufacturer's Extended Guarantee.
12.2.8
If the benefit of a Manufacturer's Extended Guarantee is transferred to the Buyer, subject always to clause 12.2.1 above and further subject to the defect not being as a result of fair wear and tear, Eastbrook shall only be liable to provide replacement parts. For the avoidance of doubt, Eastbrook excludes any consequential costs involved in the fitting of such parts. Furthermore, with respect to the following these additional terms are applicable:

Perishable components such as non-glass or metallic parts (e.g. plastic parts, seals, wheels etc.) are excluded from a Manufacturer's Extended Guarantee.

Shower and bath screens: Glass and seals for such products are excluded from a Manufacturer's Extended Guarantee.

Towel rails and radiators: Such products must be individually earthed when installed for a Manufacturer's Extended Guarantee to apply.
12.2.9
If, in the sole opinion of Eastbrook, the Goods which are the subject of the Manufacturer's Extended Guarantee have been modified, misused or neglected or have been wilfully or accidentally damaged, Eastbrook shall not be liable under the Manufacturer's Extended Guarantee for the failure of the Goods.
12.2.10
No claim under a Manufacturer's Extended Guarantee will be accepted if Goods have been installed with a fault that would have been clearly visible before installation. A Manufacturer's Extended Guarantee does not cover any Goods which have been modified, altered, transformed or relocated in any way.
12.2.11
Claims under a Manufacturer's Extended Guarantee must be made by the Buyer within [7 working days] of the defect being discovered.
12.2.12
In consideration for receiving the benefit of this clause, the Buyer agrees that, apart from those terms set out in clause 10 and 11, all other terms, whether conditions, warranties or innominate terms, express or implied, statutory or otherwise, are excluded from the contract between Eastbrook and the Buyer to the extent permitted by law (except where the Buyer deals as consumer within section 12 of the Unfair Contract Terms Act 1977 when the terms implied by sections 13, 14 and 15 of the Sale of Goods Act 1979 shall be implied into the contract).
12.3 Exclusion of Consequential Loss

Eastbrook shall not be liable for any consequential or indirect loss suffered by the Buyer whether such loss arises from breach of a duty in contract or tort or in any other way (including loss arising from Eastbrook's negligence) including, without limitation to the generality of the foregoing:
- loss of profits;
- loss of contracts;
- damage to property of the Buyer or anyone else; or
-
personal injury to the Buyer or anyone else (except so far as such injury is attributable to Eastbrook's negligence).
12.4Limitation
Eastbrook's total liability for any one claim or for the total of all claims arising from any one act or default of Eastbrook (whether arising from Eastbrook's negligence or otherwise) shall not exceed the contract price of the Goods.

13. FORCE MAJEURE

13.1
Eastbrook shall not be liable for any failure to deliver the Goods or perform the Services arising from circumstances outside Eastbrook's control.
13.2
Non-exhaustive illustrations of such circumstances would be act of God, war, riot, explosion, abnormal weather conditions, fire, flood, strikes, lockouts, Government action or regulations (UK or otherwise), delay by suppliers, accidents and shortage of materials, labour or manufacturing facilities.
13.3
Should Eastbrook be prevented from delivering the Goods or performing the Services in the above circumstances, it shall give the Buyer written notice of this fact as soon as reasonably practicable after discovering it.
13.4
If the circumstances preventing delivery of the Goods or performing the Services are still continuing three months after the Buyer receives Eastbrook's notice, then either party may give written notice to the other cancelling the contract.
13.5
If the contract is cancelled in this way, Eastbrook will refund any payment which the Buyer has already made on account of the price (subject to deduction of any amount Eastbrook is entitled to claim from the Buyer) but Eastbrook will not be liable to compensate the Buyer for any further loss or damage caused by the failure to deliver the Goods or perform the Services.

14. SALES PROMOTION DOCUMENTATION

Whilst Eastbrook takes every precaution in the preparation of its catalogue, technical circulars, price lists and its other literature, these documents are for the Buyer's general guidance only and the particulars contained therein shall not constitute representations by Eastbrook and Eastbrook shall not be bound thereby.

15. USE OF DATA

15.1
If the Buyer provides any data relating to the business of the Buyer to Eastbrook for any purpose, then the Buyer agrees that Eastbrook may hold such data and use it in relation to the supply of Goods, to process payment and to inform the Buyer (including all its staff) of other Goods or Services that Eastbrook may offer from time to time. Eastbrook will hold all data relating to the Buyer in accordance with our privacy policy and privacy statements in force from time to time and which is available on demand.

15.2
The Buyer agrees that Eastbrook may share any data referred to in clause 15.1 with third parties only where it is necessary for the provision of the Goods or Services supplied by Eastbrook and further that the Buyer shall hold Eastbrook harmless for the misuse of such data by those third parties.
15.3
In relation to any data supplied by the Buyer to Eastbrook regarding the Buyer's customers, the Buyer warrants and represents that they have obtained consent to share such data with Eastbrook (whether this relates to remedial services or the replacement of Goods or otherwise) and the Buyer agrees to indemnify and keep indemnified, Eastbrook from and against any losses, damages, liability, costs (including legal fees) and expenses incurred by Eastbrook as a result of or in connection with the Buyers breach of this Clause.

16. NOTICES

Any notice to be given hereunder shall be in writing and shall be deemed to have been duly given if sent or delivered to the party concerned at its address specified overleaf or such other address as that party may from time to time notify in writing and shall be deemed to have been served, if sent by post, 48 hours after posting.

17. ASSIGNMENT

Neither Eastbrook nor the Buyer shall assign or purport to assign or transfer the contract or the benefits thereof to any other person without prior written consent of the other.

18. SEVERANCE

18.1
If any provision of this contract (or part of any provision) is or becomes illegal, invalid or unenforceable, the legality, validity and enforceability of any other provision of the Contract shall not be affected.
18.2
If any provision of the contract (or part of any provision) is or becomes illegal, invalid or unenforceable but would be legal, valid and enforceable if some part of it was deleted or modified, the provision or part-provision in question shall apply with such deletions or modifications as may be necessary to make the provision legal, valid and enforceable. In the event of such deletion or modification, the parties shall negotiate in good faith in order to agree the terms of a mutually acceptable alternative provision.

19. PROPER LAW AND JURISDICTION

The Contract shall be governed by and construed in accordance with English law and all disputes arising in connection with the contract shall be submitted to the jurisdiction of the English Courts.

20. HEADINGS

The headings of these conditions are for convenience only and shall have no effect on the interpretation thereof.
