## Laurent Grey

Laurent is the perfect addition to elevate any space where classic charm meets contemporary style.

Ceramic 300x600mm - suitable for wall use, choose from a fresh matt or luxe gloss finish, as well as a coordinating matt décor.

<b>Material</b>	Ceramic
<b>Suitable</b>	Indoor Wall
<b>Finish</b>	Matt, Gloss & Matt Décor
<b>Code</b>	P12879 (Matt) P12880 (Gloss) P12994 (Matt Décor)
<b>Dimensions</b>	300x600 x 8.3mm

Laurent Grey is also available in a coordinating porcelain 600x600mm wall and floor tile.

<b>Material</b>	Porcelain
<b>Suitable</b>	Indoor Wall & Floor
<b>Finish</b>	Matt
<b>Code</b>	P13516 (Matt)
<b>Dimensions</b>	600x600 x 9.5mm

# Laurent Beige

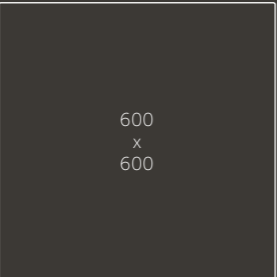

Laurent is the perfect addition to elevate any space where classic charm meets contemporary style.

Ceramic 300x600mm - suitable for wall use, choose from a fresh matt or luxe gloss finish, as well as a coordinating matt décor.

<b>Material</b>	Ceramic
<b>Suitable</b>	Indoor Wall
<b>Finish</b>	Matt, Gloss & Matt Décor
<b>Code</b>	P12881 (Matt) P12882 (Gloss) P12993 (Matt Décor)
<b>Dimensions</b>	300x600 x 8.3mm

Laurent Beige is also available in a coordinating porcelain 600x600mm wall and floor tile.

<b>Material</b>	Porcelain
<b>Suitable</b>	Indoor Wall & Floor
<b>Finish</b>	Matt
<b>Code</b>	P13515 (Matt)
<b>Dimensions</b>	600x600 x 9.5mm

## Waldorf

Add a touch of timeless elegance with Waldorf. With the look of marble, but none of the associated maintenance, they're perfect for bringing a light and bright feel to any interior.

Ceramic 300x600mm - suitable for wall use, choose from a fresh matt or luxe gloss finish, as well as a coordinating matt décor.

<b>Material</b>	Ceramic
<b>Suitable</b>	Indoor Wall
<b>Finish</b>	Matt, Gloss & Matt Décor
<b>Code</b>	P12875 (Matt) P12876 (Gloss) P12996 (Matt Décor)
<b>Dimensions</b>	300x600 x 8.3mm

Waldorf is also available in a coordinating porcelain 600x600mm wall and floor tile.

<b>Material</b>	Porcelain
<b>Suitable</b>	Indoor Wall & Floor
<b>Finish</b>	Matt
<b>Code</b>	P13514 (Matt)
<b>Dimensions</b>	600x600 x 9.5mm

## Oscar

With the look and feel of real marble, but none of the associated maintenance, Oscar is the perfect choice for creating a luxurious and inviting interior. Suitable for wall use, Oscar comes in an authentic matt finish.

<b>Material</b>	Ceramic
<b>Suitable</b>	Indoor Wall
<b>Finish</b>	Matt
<b>Code</b>	P13001 (Matt)
<b>Dimensions</b>	300x600 x 8.3mm

# Important Information

## DIMENSIONS, COLOUR & SHADING

Although we have made every effort to display the colours accurately, we cannot guarantee that this printed brochure directly reflects the colours of the actual product. As products can vary slightly from these images, we advise you to order a sample for true colour representation. Please note that tiles are created in batches and some shade variation may occur between batches. Products with the same colour name, such as "grey", are not necessarily the same exact colour shade as another product with "grey" in its name. Please do not order using colour names or product names as your guide to colour. Our tiles are manufactured to extremely tight tolerances, however due to the nature of the manufacturing process, sizes, weights, capacities, dimensions and measurements indicated may vary slightly.

## GOODS

We take care to ensure that all of our Goods leave us in perfect condition. All orders must be examined on delivery and any shortages, damages or other discrepancies should be brought to our attention before installation. Confirm that all products have been inspected and approved before installation begins, as the installation of the product signifies acceptance.

## MAINTENANCE

Glazed porcelain, ceramic or glass tiles and mosaics can be cleaned using mild household cleaners, taking care not to scratch the surface. Do not use harsh chemicals, such as those designed to remove limescale, or abrasive cleaners which may damage the surface of the tile.

## MOSAICS

Like natural stone tiles, mosaic sheets that contain stone pieces will require sealing to prevent staining. Mosaics that contain metal pieces should not be installed in areas where water may collect. When fixing any mosaics it is important to use an adhesive and grout that are specified for the material content of the mosaic sheet. For mosaics containing glass pieces use a suitable adhesive specified for glass mosaics and the substrate they are to be fixed to. If fixing in wet areas we recommend using an epoxy adhesive and grout following the manufacturer's instructions.

## SLIP RESISTANCE - R RATINGS

These are German test methods that require an operator with standard footwear (DIN 51130) or barefoot (DIN 51097) to walk on the test surface. This is fully recognised and adopted in the UK. Known also as the ramp test, the inclination angle of the test surface, can be varied under the control of the operator, the test surface can be sprayed with liquid contaminant at a prescribed rate, motor oil (DIN 51130) or a soap solution (DIN 51097). The operator, wearing a fall restraint harness gradually increases the inclination of the ramp until he or she feels insecure or slips when walking up and down the slope. The "R" values range from R9, which has a small degree of slip resistance, up to R13 which is the highest slip resistance. R9 & R10 ratings are suitable for indoor domestic areas, whereas R11 ratings and above are also suitable for external applications. We don't recommend R9 rated tiles to be used in wet areas, such as wet rooms.

- R9: Angle of 6-10°
- R10: Angle of 10-19°
- R11: Angle of 19-27°
- R12: Angle of 27-35°
- R13: Angle of >35°

## SLIP RESISTANCE - THE PENDULUM TEST

The Pendulum Test simulates the action of a shod foot slipping by swinging an imitation heel clad with standard soling rubber over the test surface. BS 7976 Pendulum testers defines the apparatus and test method, while other standards, eg. BS EN 14231 Natural Stone Tiles, refine the test method for particular floor coverings. PTVs can be obtained for dry surfaces and surfaces contaminated with water. Research has proved the pendulum test to be accurate and reliable and it has been adopted by the Health and Safety Executive (HSE) as the standard test for the assessment of floor slipperiness in dry and contaminated conditions. It also has the advantage of being portable and therefore capable of producing in situ values. The HSE emphasises that pendulum operators need to be fully trained to obtain consistent results.

- PTV of 0-24: High risk of slip
- PTV of 25-35: Medium risk of slip
- PTV of 36+: Low risk of slip

## PEI RATINGS

PEI is the abbreviation for Porcelain Enamel Institute. A PEI Rating is given to a tile product based on the hardness of its glaze. This hardness is determined by the manufacturer using a standardised test. The results of this test will determine the proper usage of a product. It is important to note that the PEI Rating is the result of testing glaze wear only, and not slip-resistance. Natural Stone and other unglazed products are not glazed and are therefore not rated.

- N/A: A PEI rating for this tile is not available
- Group 1: Suitable only for residential / commercial walls, not suitable and/or recommended for foot traffic - examples include bathroom walls, backsplashes and accent walls
- Group 2: Suitable for general light residential traffic - examples include bathrooms, formal dining rooms, formal living rooms, etc. NOT suitable for residential areas subjected to continuous foot traffic
- Group 3: Suitable for all residential and light commercial areas - examples include residential kitchens, foyers, laundry rooms, commercial offices, reception areas and boutiques
- Group 4: Suitable for residential, medium commercial and light institutional applications - examples include restaurants, hotels, hospital lobbies and corridors
- Group 5+: Suitable for heavy traffic in both residential and heavy commercial applications - examples include mass transit, airports, malls, schools, etc.
